Article Information Sheet

Rmax provides this Article Information Sheet as a courtesy in response to a customer request. A Safety Data Sheet (SDS) has not been prepared for these product(s) because they are articles.

Articles are not subject to the Occupational Safety and Health Administration’s Hazard Communication Standard (29 CFR 1910.1200(b)(6)(v)). As defined in this standard: “Article” means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and does not pose a physical hazard or health risk to employees.

### Section 1: Identification

**Product identifier:**
Product Name

R-SEAL 3000  
R-SEAL 3000W

**Relevant identified uses of the substance or mixture and uses advised against**

Recommended use: Adhesive Construction Tape

Section 10: Stability and Reactivity

This material is considered to be non-reactive under normal use conditions.
**Section 11 - Toxicological Information**

Inhalation: This product may have a characteristic odor; however, no adverse health effects are anticipated.

Skin Contact: No health effects are expected

Eye Contact: No health effects are expected

Ingestion: No health effects are expected

Additional Information: This product, when used under reasonable conditions and in accordance with the directions for use, should not present a health hazard. However, use or processing of the product in a manner not in accordance with the product’s directions for use may affect the performance of the product and may present potential health and safety hazards.

**Section 12 - Ecological Information**

This article is expected to present a low environmental risk either because use and disposal are unlikely to result in a significant release of components to the environment or because those components that may be released are expected to have insignificant environmental impact.

**Section 13 - Disposal Considerations**

Dispose of in accordance with all applicable local and national regulations.

**Section 14 - Transport Information**

Not regulated per U.S. DOT, IATA or IMO.

These transportation classifications are provided as a customer service. As the shipper, YOU remain responsible for complying with all applicable laws and regulations, including proper transportation classification and packaging. Rmax transportation classifications are based on product formulation, packaging, Rmax policies and Rmax understanding of applicable current regulations. Rmax does not guarantee the accuracy of this classification information. This information applies only to transportation classification and not the packaging, labeling, or marking requirements. The original Rmax package is certified for U.S. ground shipment only. If you are shipping by air or ocean, the package may not meet applicable regulatory requirements.

**Section 15 - Regulatory Information**

Chemical Inventories

This product is an article as defined by TSCA regulations, and is exempt from TSCA Inventory requirements.

**Section 16 - Other Information**

NFPA Hazard Classification

Health: 0 Flammability: 1 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.
