RE: SIKA SUPPLY CHAIN AND COVID-19

March 11, 2020

Dear Valued Customer:

We at Sika Corporation (US) would like to provide you with an update as it relates to Sika’s supply chain, inventory, and continuity planning in light of the Novel Coronavirus (COVID-19).

Of course, our main concern is the health of our employees, customers, partners, stakeholders and all of their families. To help ensure everyone’s continued well-being, Sika globally is following the guidelines of the Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO). We will continue to monitor this situation and take additional measures as needed.

Sika Corporation (US) is very fortunate that the vast majority of our raw materials are sourced or available in North America. At this time, we do not anticipate significant delays or shortages in our current supply of raw materials and finished products as a result of COVID-19. Our procurement, supply chain, and operations teams are working diligently to remain proactive and thorough in our efforts to continue servicing your needs. In addition, our sales teams across all of our businesses are fully-focused every day on delivering the world-class levels of service you, as a valued customer, expect from Sika.

Sika remains committed to providing updated news as this situation develops. We encourage you to visit our website (usa.sika.com) for the latest information or contact your Sika sales representative or account manager if you have any questions.

Again, we wish you and your families continued good health and well-being.

Sincerely,

Richard Montani
President and Chief Executive Officer

David White
