2016 Pacific Water Conference Recap

By Jay Stone
At-Large Trustee—Conference Committee Chair

The Hawai‘i Section of the American Water Works Association and the Hawai‘i Water Environment Association held the third annual joint Pacific Water Conference at the Hawai‘i Convention Center from February 2-4, 2016. This year’s theme was “E ho‘olokahi pū e mālama aku ai i ko kākou wai—Working Together to Protect Our Water Resources.”

Conference activities started on Tuesday, February 2, with the pre-conference workshops. The workshops covered a wide range of topics including Wastewater—Nutrient Removal, Water Operations, Wastewater Operations, Young Professionals, and Energy Management. The Young Professionals workshop allowed YPs to learn from seasoned professionals on getting involved in professional organizations, non-potable water, on-site wastewater systems, construction management, preparing fee proposals, leadership and management, and Project Water Education for Teachers. Over 215 people attended the five workshops.

The conference officially opened on Wednesday, February 3, with the keynote address by Suzanne Case, Chair, State of Hawai‘i, Department of Land and Natural Resources. Over 75 presentations given by over 80 speakers in six separate technical tracks were held over the two-day conference. The technical tracks covered diverse topics, including water, wastewater, and stormwater treatment; program management; small water systems; water reuse; project delivery options; climate change; and condition assessments.

Eddy, the AWWA mascot, enjoying the conference and handing out lei

continued on page 2
EddySM, AWWA’s mascot, attended the Pacific Water Conference for the first time. He helped spread the word of the value of clean water and brought smiles to attendees.

We were grateful that Gene Koontz, AWWA President, could attend our conference, and he gave a presentation titled “Facing Upcoming Challenges—The AWWA Strategic Plan.” Thank you, Gene, for making the trip to Hawaii this year!

In addition to the technical sessions, the 520+ attendees were able to visit 116 booths in the Exhibition Hall on the first floor of the convention center. Highlights of the conference included the Pipe Tapping, Top Ops, Operators’ Challenge competitions, Meet & Greet on Wednesday, and conference banquet on Thursday. At the banquet, Ross Kaneko received the George Warren Fuller Award. Ho’omaika’i ‘ana, Ross.

Two teams participated in the Pipe Tapping contest. The winning team was from the Honolulu Board of Water Supply. Ho’omaika’i ‘ana, Evan Kaneshiro, Christopher Morris, Ben Meria and Chad Kamalani-Coleman, who will represent Hawai’i at the 2017 ACE.

Four teams from Moloka’i, O’ahu, and Maui participated in the Top Ops competition, with Kawela Plantation winning first place. Ho’omaika’i ‘ana, Kaniala Kadowaki (Hawaii Water Service), Edmund “Ekemana” Lima, and John “Kekoa” Colon.
On Friday, February 5, the conference golf tournament was held at the Hawai‘i Prince Golf Course. We had outstanding participation in the tournament, which was a four-person scramble with individual handicaps up to 30.

Conference activities ended on Saturday, February 6, with a community service event at the Maunalua Bay Invasive Algae Removal Project in partnership with Mālama Maunalua in Hawai‘i Kai. Over 40 volunteers from AWWA–HI and HWEA helped preserve and enhance the water environment by removing invasive algae threatening Hawai‘i’s coral reefs and marine ecosystems. Mahalo to Alyssa “Sunshine” Smith and Jessica Agsalda for organizing the community service event. Sunshine (who did all her work remotely since she now lives on the mainland) and Jessica (who also helped put together the conference booklet) did an excellent job.

On behalf of the conference co-chairs, I wanted to personally thank all the conference committee members for their hard work, understanding, flexibility, and adaptability as we tackled each challenge directly.

Mahalo nui loa to all the attendees, speakers, volunteers, agencies, and firms that helped to make the 2016 Pacific Water Conference a success.

I hope to see you at next year’s conference.§
Chair’s Message
By Jeffrey Pearson
Hawaii Section Chair

Another successful Pacific Water Conference is behind us. This year was the third year of a combined conference with AWWA and Hawaii Water Environment Association (HWEA). The pre-conference workshops and conference were well attended with as many as six educational tracks going at one time.

Jay Stone and his hard working conference committee did a heck of a job. For AWWA, the conference committee members were: Trevor Inouye, Susan Mukai, Sandy Nahoopii-Soong, Rich Hopkins, Lorna Heller, Jordan Moniuszko, Natalie Waters, Glenn Ah Yat, Kevin Ihu, Hernan Co, and Joanna Seto. The HWEA conference committee members were: Scott McAdam, Puna Kaneakua, Jordan Fahmie, Lori Higashi, Milo Smith, Aiko Fajardo, Jessica Agsald, Keith Faufata, Jonathan Baker, Wayne Salas, Alyssa Sunshine Smith, Alicia Nakano, Darnelle Chung, Kelu Zhang, and Emily Dong. All did a great job and hopefully had fun doing it. Thank you for all your efforts. For next year’s conference, Susan Mukai will be the AWWA Conference Committee Chair. Susan was the Technical Program Co-Chair this year. Thank you Susan for stepping up, and good luck next year. At our AWWA board meeting held Thursday, February 5, the Board voted to again have a joint conference for next year, and it was just agreed upon with HWEA that there will be a joint 2017 Pacific Water Conference.

In other news, AWWA will again be using an EPA grant through AWWA National to hold a workshop through RCAC. Joy Gannon at RCAC, who is also the Small Water Systems Committee Chair, will be working on this along with our Workshop Committee Chair Trevor Inouye, with help from Jay Stone. The workshop is tentatively scheduled for May 2016 on Maui.

Coming to Oahu in November 2016 is the Region V Meeting of Sectional Officers (RMSO). This meeting is a two day planning meeting with AWWA National, with officers from our western Section V. Our Vice Chair (soon to be Chair), Mike Street, will be coordinating this event. We expect 60 to 80

continued on page 5

Hawaii Section Mission Statement

The Hawaii Section AWWA is dedicated to the promotion of public health and welfare in the provision of drinking water of unquestionable quality and sufficient quantity. The Hawaii Section AWWA must be proactive and effective in advancing the technology, science, management, and government policies relative to the stewardship of water.
section officers plus guests to attend. This will be a good time to feature our islands and our Hawaii Section. As we get closer we will be looking for volunteers to help make things run smoothly.

Lastly, I want to give out a special thank you to Juanita Colon, who has accepted the position of Vice Chair starting June 1, 2016. Mike Street will assume the Chair at that time, where I will recede to Past Chair. I also want to thank Ross Kaneko for stepping up as At Large Trustee—Administrative and Policy Council replacing Juanita. We are still missing a Public Outreach Committee Chair, so if interested please let anyone on the Board know.

Thanks again for all those who put in their own time to make AWWA Hawaii Section work. Without you, we would not have a Hawaii Section. §

---

**Hawaii Section Vision Statement**

Hawaii Section of the American Water Works Association will be the leading force in the State of Hawaii dedicated to safe drinking water.

---

**Chair's Message, continued from page 4**
The AWWA Winter Board meeting was held in beautiful San Diego from January 14th to 16th. Besides electing our officers for 2016-2017, there were robust conversations and much was accomplished during the two day meeting. Here are some of the highlights:

- Increase the coordination of educational programs and services between the Association and its Sections. Fulfillment of the small systems grants for higher education.

- New “One AWWA Operator’s Scholarship” – The water industry faces a critical shortage of Operators and the need is expected to increase by 6% in the next decade. The scholarship fund can be used for Operator’s training and education expenses.

- Increase public understanding of water issues and the value of water. The Association would like to partner with Water Environment Federation on outreach program that serves both memberships. The Association would like to actively participate in the Value of Water (VoW) coalition work to benefit AWWA infrastructure and value of water messages. Please see VoW Coalition for more information.

- The Association has maintained a 50,000 membership average for the past three years.

Congratulations and thank you to all of the volunteers, exhibitors, and attendees. Your participation and energy made the 3rd Annual Pacific Water Conference a great success!
To close this year’s 2016 Pacific Water Conference, conference attendees took part in a community service event on Saturday, February 6, 2016. This project was coordinated by Mālama Maunalua and is part of an ongoing effort to remove invasive algae from Maunalua Bay. Invasive, non-native algae were introduced into the bay by sediment and runoff from land. The invasive species spread and eventually kill off native coral reefs and algal communities, greatly affecting the coral reef’s ecosystem.

On the day of this huki, volunteers were tasked with removing invasive algae and bringing the algae to shore in order to be dispersed to nearby farms for use as fertilizer. Together, volunteers removed approximately 2,600lbs of invasive algae from Maunalua Bay.

Special thanks to Brown and Caldwell and Fukunaga and Associates for sponsoring this event.

Volunteers collecting invasive algae

Amanda Tanaka and Susan Mukai pulling invasive algae

Pacific Water Conference volunteers after the community service event.
Ross Kaneko, 2016 George Warren Fuller Award Recipient

By Woodie Muirhead
Fuller Award Committee Chair

Ross A. Kaneko is the 2016 recipient of the Hawaii Section’s George Warren Fuller Award. This award is presented annually by the American Water Works Association to the sections’ respective selected members for their distinguished service to the water supply field in commemoration of the sound engineering skill . . . the brilliant diplomatic talent . . . and the constructive leadership, which characterized the life of George Warren Fuller.

Ross Kaneko’s service to the Hawaii Section and Hawaii’s water and wastewater industry reflects the ideals of the George Warren Fuller Award. Ross has been a member of the Hawaii Section since March 1994, and has served the Hawaii Section in numerous capacities:

1994 - 1998 - Membership Committee Chair
1998 - 1999 - Conference Trustee
1999 - 2001 - Trustee
2000 - 2002 - Strategic Planning
2001 - 2002 - Vice Chair
2002 - 2003 - Chair
2003 - 2004 - Past Chair, Awards
2005 - 2006 - Nominating Committee Chair
2004 - 2014 - Bylaws/Standard Practice Manual Committee Chair

In appreciation for his service, Ross received a Special Recognition Award in 1996, and the Outstanding Section Member Award in 2005.

Ross is currently Vice President and Client Portfolio Manager at CH2M HILL in Honolulu, with whom he has been employed for 26 years. He is responsible for Water Business Group operations (sales, staffing and project delivery) in Hawaii and the Pacific, with a focus on water, wastewater, and water reuse projects. Hawaii clients and his peers recognize his excellent customer service.

Ross is active in soccer activities for his children and himself. He coached youth soccer (American Youth Soccer Organization and club) for many years, and has recently returned to play soccer himself (to which he attributes his Monday morning aches, pains, and occasional limps).

Ross was presented a George Warren Fuller Award pin at the Hawaii Section Awards Ceremony during the Pacific Water Conference in February. Ross will additionally receive a plaque at an awards ceremony in Chicago during ACE 16 in June. Congratulations Ross! §
As planned, the Sub-Section held a General Meeting on November 4, 2015. The session was well attended and participation was great. The officers to be elected turned out to be incumbents who were re-elected and a new Vice-Chair was chosen; Elizabeth “Lisa” San Agustin, GWA’s Utilities Services Administrator. The Sub-Section terms of office were voted to be the same as those for the Section, and the fiscal year was set at June 1 through May 31.

There was animated discussion about the upcoming annual conference and support for adding a trade show was good. The conference will be held on April 11-12, 2016 at the Lotte Hotel and Resort, Guam. Exhibitor focus will be on local representatives for national vendors that are seen at the AWWA ACE and at WEFTEC. The selected theme is “Making the Best of What You Have: Reliability, Effectiveness, Efficiency.” The call for papers was sent out on January 13, 2016.

The Sub-Section is proud to announce Mr. Jefferey Theerman, P.E. as this year’s guest speaker. Jeff is a board member of the U.S. Water Alliance and recently served as Executive Director of the Metropolitan St. Louis Sewer District, which serves a population of about 1.3 million people.
The planning of the trade show for this event is going well. The Sub-Section recruitment of new members and requests for sponsorship are receiving good responses. The registration form will be finished shortly and will be posted on the Sub-Section Website. For more information about the annual conference, please keep an eye on http://www.awwa-hiwps.org/.

On December 9, 2015, the Sub-Section held a “Holiday Party Mixer” as a recruitment opportunity and networking session. The venue was furnished by Frontier Supply Company, which is one of the Sub-Section’s most active sponsors. The mixer was conducted in the Chamorro “Fiesta” style and it was very well attended.

An item that makes us all very happy is that our Sub-Section Planning Committee Chair, Miguel Bordallo, accepted the position of General Manager of Guam Waterworks Authority on January 4, 2016.

Three Sub-Section members made it to the AWWA/HWEA Pacific Water Conference, Melissa Schaible, Sub-Section Treasurer; Nicole Quan, Planning Committee member; and Ken Rekdahl, Sub-Section Trustee. Melissa gave a presentation on “Fats, Oil and Grease on Guam” and Ken gave a paper on “The Upgrade of the Hagatna Waste Water Treatment Plant.”

Michelle and Miguel Bordallo, new First Lady and General Manager of Guam Waterworks Authority.
Hawaii State Science and Engineering Fair Announcement

By Mark Ohigashi
Youth Education Committee Chair, Young Professionals Vice Chair

In a continuing effort to promote STEM (Science, Technology, Engineering and Mathematics) education and programs in Hawai‘i’s schools, the AWWA Hawai‘i Section is calling for its members and its member-organizations to get involved with the 2016 Hawai‘i State Science and Engineering Fair (HSSEF), hosted by the Hawai‘i Academy of Science (HAS). This year, on behalf of the AWWA Hawai‘i Section membership, the Board of Trustees is proud to sponsor the 2016 HSSEF with a $1,000 sponsorship and two (2) $250 AWWA Hawai`i Section agency awards.

HAS is a nonprofit organization that has been promoting scientific research and education in Hawai‘i for almost 90 years and has been running the state’s oldest and largest science fair for almost 60 years. Each year, bright and eager students from grades 6 through 12 submit display or research projects to their school and subsequent district fairs. These mind-blowing projects, which are beyond what most adults could have imagined presenting when they were in grade school, compete, and will be judged at this year’s 59th Annual HSSEF held at the Hawai‘i Convention Center on March 28-30, 2016. Winners of the HSSEF will be entered into the Intel International Science and Engineering Fair to be held in Phoenix, Arizona on May 8-13, 2016, a stage where Hawai‘i students traditionally perform very well. For more information about the HAS or the HSSEF, visit their website at: http://www.hawaiiacademyofscience.org.

AWWA Hawai‘i Section is looking to assist HAS in answering their call for volunteers that are willing to judge HSSEF project entries and those that can fill non-judge positions, as well.

- **Hawai‘i Science Academy Judge Volunteers:**
  - **Qualifications:**
    - Must have a Master’s Degree or PhD.
    - Must have 7-8 years of experience in their field.
  - **Registration:** Qualified Hawai‘i Science Academy Judge Volunteers should contact Mark Ohigashi by e-mail at: mohigashi@brwnclad.com and you will be contacted directly by the Hawai‘i Academy of Science.
  - **Registration Deadline:** As soon as possible.

- **AWWA Hawai‘i Section Water Industry Agency Award Judge Volunteers:**
  - **Qualifications:**
    - Must have at least 20 years of experience in the water industry

continued on page 12
including, but not limited to water-related fields such as operations, engineering, science, quality, resources, rights/ law, regulation, utilities, management and manufacturing.

- Must be available on Tuesday, March 29, 2016 for judging.
- Registration: Qualified AWWA Hawai’i Section Water Industry Agency Award Judge Volunteers should contact Mark Ohigashi by e-mail at: mohigashi@brwncald.com.
- **Registration Deadline: Monday, March 21, 2016.**

- **Non-Judge Volunteers:**
  - Qualifications: Able to perform listed position/shift descriptions.
  - Registration: Contact Mark Ohigashi by e-mail at: mohigashi@brwncald.com and you will be contacted directly by the Hawai’i Academy of Science.
  - **Registration Deadline: Monday, March 14, 2016.**

- **Positions in Need:**
  - **Monday, March 28, 2016**
    - Safety Checkers (veteran volunteers will mentor): 2-5pm Shift
  - **Monday, March 28, 2016**
    - Exhibit and Poster Set-Up: 8:30-11:30am Shift
  - **Wednesday, March 30, 2016**
    - Award Ceremony Ushers: 11am-2:30pm Shift

For any questions about volunteering for the 59th Annual Hawai’i State Science and Engineering Fair, please contact Mark Ohigashi, AWWA Hawai’i Section Youth Education Committee Chair, by e-mail at: mohigashi@brwncald.com. §

- Kami Yoshizawa
- Hao Zheng
It’s been a busy few months for AWWA|HWEA Young Professional (YP) members. We participated in a Sand Island Beach Park cleanup on Saturday, November 22, 2015 in conjunction with HWEA.

Then, we rang in the new year with another community service project, the Hakipu’u Stream Restoration, on Saturday, January 23, 2016 in Kaneohe. For this event, YP members assisted with the clearing of invasive plants along the stream corridor and replanting native species. The goal of this project is to reduce the runoff of sediment into the Hakipu’u Stream and Kāne‘ohe Bay.

For this year’s 2016 Pacific Water Conference, YP member, Hernan Co, prepared a jam packed pre-conference track specially geared towards young professionals. The pre-conference was held on Tuesday, February 2nd with approximately 20 attendees. The day began with AWWA President, Gene Koontz, and Water Environment Federation (WEF) Immediate Past President, Ed McCormick, speaking about their respective organizations and the future of the water and wastewater industry. Other speakers included Barry Usagawa, Russell Brain, Mike Young, Clifford Lum, Jennifer Nakayama, Juanita Colon, Jessica Agsalda, and Amanda Tanaka. Topics discussed during this track included non-potable water, on-site wastewater systems, construction management and preparing fee proposals for clients.
After the pre-conference, YP hosted a social event at Tsukiji’s Restaurant Lounge located at Ala Moana Shopping Center. There were about 20 young professionals in attendance and everyone had a great time talking story and getting to know one another.

There are a few upcoming events for the YP group. Vice Chair, Mark Ohigashi, and I attended the YP Chair Training & YP Summit in San Diego, CA on Tuesday, February 23, 2016 to Wednesday, February 24, 2016. We learned more about how to improve YP for our members and will be providing a recap in the next newsletter. There will also be an outreach event at Webling Elementary, on Thursday, March 10th. At this event, our volunteers will assist elementary school students in an engineering related activities.

Mahalo to those who have participated in our events these past few months. We look forward to planning future events for our members. §
Member Spotlight: Joanna Seto

For a civil engineer, water is in the blood.

Job: Engineering Program Manager.

Educational background: Bachelor’s degree in civil engineering from Washington University in St. Louis.

What is something that people would be surprised to know about you? My two sisters are also civil engineers working in the public sector. One sister is at the Hawaii Department of Transportation and the other is at the Honolulu Board of Water Supply.

Why did you decide to go into the water field? My father was a career engineer at the Honolulu Board of Water Supply and was also on the AWWA-HI Section Board of Trustees for many years. He taught my sisters and me about the importance of water and drinking water through the hydrologic cycle when we were younger.

Daily duties: Administration of the state’s Public Water System Supervision Program, Groundwater Protection Program, and Drinking Water State Revolving Fund Program.

What is the most exciting project you’ve worked on? The improvement of the Drinking Water State Revolving Fund Program is exciting and stressful. Development and implementation of the Annual Joint Government Water Conference with multiple government agencies is enjoyable because we are able to share and collect updated information from each other.

What is something unexpected you learned on the job? There are 133+ regulated public water systems in the State of Hawaii. While the majority of those systems are groundwater systems, we have a few surface water systems and a couple water catchment systems.

Goals? To meet the mission of the Safe Drinking Water Branch -- “safeguard public health by protecting Hawaii’s drinking water sources (surface water and groundwater) from contamination and assure that owners and operators of public water systems provide safe drinking water to the community” -- and to ensure the Safe Drinking Water Branch complies with the EPA grant conditions.

continued on page 16
Do you have a role at your section and how did you become a volunteer? I’m the Past Chair of the Section. In 2011, I was asked to fill the Government Trustee position on the Board of AWWA-HI because of my new position at the Safe Drinking Water Branch.

How long have you been a member and what have you gotten from your membership? I’ve been a member for four years. Membership in AWWA has provided me with invaluable friendships and contacts with operators, board members, consultants, managers, and others in the drinking water field. This was the best way to meet and learn from the people who keep our drinking water safe.

What is the biggest challenge you’ve faced in your career? Responding to the Environmental Protection Agency Region 9 Notice of Non-Compliance for the Hawaii Drinking Water State Revolving Fund and implementing the ongoing Corrective Action Plan while achieving interim goals to ensure the award of the balance of the program’s FFY 2015 Capitalization Grant.

Toughest thing about your job? Balancing the work needed to meet Drinking Water State Revolving Fund requirements with the other aspects of the Safe Drinking Water Branch and maintaining good relationships with all involved.

What’s your motto in life? I have a few -- Slow and steady wins the race. Share yourself by volunteering. Make a positive impact on someone else.

What are your hobbies, outside interests, etc.? I enjoy volunteering for different organizations: AWWA-HI Section, ASCE Hawaii Section, Girl Scouts of Hawaii, Na Wahine Softball Club, Kalani Falcons Band Boosters, 'Iolani School, and Washington University in St. Louis. In my spare time, I enjoy spending time with my family and reading.

When you were a kid, what did you want to be when you grew up? I thought about architecture until my creative drawing skills were found to be lacking. I then turned to engineering, but wasn’t sure what kind. My sixth grade classmate shared our “Team 9 Awards” in which I’m listed as “water expert.”

Newsletter Advertising

The Hawaii Section of the American Water Works Association (AWWA) is currently seeking advertisers for its quarterly newsletter. Advertising provides a direct message to a population of over 600 members statewide who are in need of the products or services being advertised. Although we have switched to electronic distribution of the newsletter, we feel that there is still equal benefit to advertising in the electronic newsletter as with the printed newsletter. In addition, advertising in the electronic newsletter can be in full color.

Please be aware that advertising in the newsletter is available only to businesses related to the drinking water field. Please also note that all advertisements will be submitted for review and approval by the AWWA Hawaii Section Board of Trustees for ad content.

Production Information Newsletter

The American Water Works Association/Hawaii Section newsletter is published to inform its members of Section and International AWWA activities, meetings, educational opportunities and other matters of interest to the water community. The mention of trade names for commercial products does not represent or imply an endorsement by AWWA Hawaii Section.

Newsletter Articles

AWWA members are welcome to submit articles for the Newsletter. Please contact Susan Mukai at smukai@brwncald.com for information.

Submissions for the Spring Newsletter are due by Friday, May 13, 2016.
