

ACE 17 in Philadelphia

By Juanita Colon and Susan Mukai

The trip to the AWWA Annual Conference and Exposition (ACE) in Philadelphia started off with the AWWA Hawaii Section cocktail reception, co-sponsored by Brown and Caldwell, on Sunday, June 11 at McCormick & Schmick's Steakhouse. We had a large turnout from the Hawaii conference attendees, and we were excited that members from the Guam Subsection were able to make the long trip to Philly to join us!

On Monday, we attended the opening session with an attendance of over 11,000 members, which is nearly double Molokai's population. Later that morning, a handful of us passed out gift bags of appreciation to the vendors that attended our 2017 Pacific Water Conference in February. Thank you to **Mark Ohigashi, Jeff Pearson, Ken Ota, Rich Hopkins, and Cliff Lum** for helping distribute the gifts and to **Susan Uyesugi** who put together the gift bags. We then went to support the Honolulu Board of Water Supply pipe tapping team who did a great job representing the Hawaii Section. Great job to **Ben Meria, Evan Kaneshiro, Chad Kamalani-Coleman, and Christopher Morris!**

The Fuller Award Breakfast took place on Wednesday, June 14, where we proudly congratulated our past-Director **Ken Ota**. Ken is highly deserving of such a prestigious award,

and we were grateful to be there to honor him.

Over the three days, there were many different activities going on. Section members were able to watch the Top Ops, Hydrant Hysteria, and Meter Madness competitions. There were events geared toward Young Professionals, including a scavenger hunt, and there were technical sessions ranging from panel discussions and forums to speakers and demonstrations. Hawaii Section Chair **Juanita Colon**, Vice Chair **Mark Ohigashi**, and Conference Trustee **Susan Mukai** went through

the Exhibit Hall to speak with vendors and encourage them to attend the 2018 Pacific Water Conference, which will be held February 6-8, 2018 at the Hawaii Convention Center.

If you were on information overload, you had a chance to see the historical sites of Philadelphia or take in all the eateries. We ended the conference with a trip to the ball field to watch the Phillies take on the Red Sox. It was a great experience and I would encourage you all to attend at least one ACE.

The 2018 ACE will be held at the Mandalay Bay Resort in Las Vegas from June 11-14, 2018. We look forward to seeing you all at next year's ACE! §

Hawaii Section Attendees Celebrating Ken Ota Receiving the Fuller Award

Hawaii Section Mission Statement

The Hawaii Section AWWA is dedicated to the promotion of public health and welfare in the provision of drinking water of unquestionable quality and sufficient quantity. The Hawaii Section AWWA must be proactive and effective in advancing the technology, science, management, and government policies relative to the stewardship of water.

Chair's Message

By Juanita Colon
Hawaii Section Chair

Aloha Kakou,
It is an honor to be serving as
your Section Chair for the
2017-2018 term.

The 2017-2018 Executive Officers are
Vice-Chair **Mark Ohigashi**, Secretary
Susan Uyesugi, Treasurer **Audrey Yokota**, Past Chair **Mike Street**, and
Director **Daryl Hiromoto**. With the help and support of the Executive
Officers, Section trustees and committee chairs we will be able to
accomplish our goals we have set forth for the coming year.

We kicked off the new term with ACE17 in Philadelphia on June 11-
14. There were approximately 70 Hawaii Section members in
attendance. Thank you to Brown and Caldwell for co-sponsoring this
year's cocktail reception. Mahalo to the men's Pipe Tapping Team from
the Honolulu Board of Water Supply for representing the Hawaii Section
at the tapping competition.

Our Conference Chair **Susan Mukai** and committee members are busy
organizing the 2018 Pacific Water Conference being held February 6-8,
2018. If you would like to present a paper, the Call for Abstracts has
recently been sent out and is posted on our AWWA Hawaii Section
website.

The Regional Meeting of Section Officers for Region V was held in
Whitefish, Montana on September 8-9, 2017. A recap will be provided in
the next newsletter.

Our next board meeting is scheduled for October 20, 2017.

I look forward to the coming year and working with our Section
volunteers and most especially meeting you all.

Hawaii Section Vision Statement

Hawaii Section of the American Water Works Association
will be the leading force in the State of Hawaii
dedicated to safe drinking water.

Director's Message

By Daryl Hiromoto
Hawaii Section Director

Thanks Ken!

Ken Ota recently completed his three-year term as the Hawaii Section Director at the 2017 ACE Conference in Philadelphia. Ken served our section extremely well, and we're all grateful for his dedication and commitment to the AWWA and the Hawaii Section. Certainly, large shoes for me to fill! As I mentioned at our ACE get-together in Philadelphia, one of the first things I noticed at the Directors meeting was that Ken knew everyone there, all 48 Directors! I began wondering how did he get to know everyone in only six meetings (2 board meetings each year)? He is Mr. Aloha. It was also very apparent that Ken was well-versed in the issues being discussed and participated well in the discussions. Again, large shoes to fill.

I completed my new Director training in July at the AWWA Denver office. I got to know my fellow new directors, and I feel I have a better understanding of my role as a Director, especially after two days of instruction. I now know 18 of the Directors and only 30 more to go.

One interesting tidbit about the Denver AWWA office. No bottled water is allowed in the building. New employees are told that if they get caught with bottled water, they may lie about it.....once! They can say "it's tap water in there, I'm only using the container." Or, "on my way in I had to take my medication and stopped by a convenience store to buy water. I forgot I still had it." If you ever visit the AWWA office, be forewarned.

One of the topics regularly discussed by Past President Jeanne **Bennett-Bailey** is diversity. At each of our meetings there's always time apportioned for a diversity moment. Initially, I thought Hawaii is a very diverse state and the Hawaii Section is diverse too, so I wasn't too sure how this applied to us. But after reading the August article of Open Channel by **David LaFrance** entitled "Diversity of Diversity," some interesting points were made. The article states "diversity exists. Inclusion, on the other hand, takes effort and a willingness to actively

2018 Pacific Water Conference

*By Susan Mukai
Conference Trustee*

The planning for the 2018 Pacific Water Conference (PWC) is well underway. We have an extremely motivated group from the AWWA and Hawaii Water Environment Association (HWEA) organizations, and we're all excited to put on another great conference for our members.

The 2018 PWC will be held at the Hawaii Convention Center in Honolulu, Hawaii from February 6-8, 2018. The Pre-Conference will have 5 concurrent tracks on Tuesday, February 6. The two days of technical tracks will take place on Wednesday, February 7 and Thursday, February 8. The golf tournament will be held on Friday, February 9 at Kapolei Golf Course, and the community service event will be held on Saturday, February 10.

Our Technical Program committee is made up of **Dr. Roger Babcock, Mark Ohigashi, Keri Ann Ogoshi, and Amy Baek**. They recently sent out the Call for Abstracts which was distributed via email to AWWA Hawaii Section members. If you did not receive that email and are interested in presenting at the conference, please visit pacificwaterconference.com or the AWWA Hawaii Section page www.hiawwa.org/2018-pacific-water-conference for the fillable form and contact information.

We are also encouraging more Young Professionals (YP) to sign up for the YP Pre-Conference track this year by offering a \$50 coupon code to YPs who sign up for the YP Pre-Con. More information about this discount will be provided at a later date. We hope that companies take advantage of this discount and sign their YPs up! The YP Pre-Con is a great way to network with peers, listen to presentations relevant to where they are in their careers, and to meet with and hear from senior professionals.

If you have any questions, please feel free to ask me or the other conference co-chairs, **Emily Dong and Puna Kaneakua**. You can also reach us at pacificwatercon@gmail.com. §

Director's Message, continued from page 5

include and be included." No doubt we have diversity, but the key is to embrace it and to see it as an opportunity. How do we do this? The article goes on to say, "Reach out to others, especially those who seem different from you." Otherwise, "when we seek out people whom we believe to be most like ourselves . . . we deprive ourselves of some great experiences and insights." So be on the lookout for those diversity moments and engage yourselves. Jeanne would be proud!

I'm looking forward to representing the Hawaii Section for the next three years. I'll try my best. If there's anything I can help you with, please don't hesitate to ask. §

Western Pacific Subsection Update

By Vincent Pangelinan
AWWA-HIWPS Chair

Hāfa Adai! The subsection conference held on June 12th 2017 in Saipan was a successful event. The conference was held at the Saipan World Resort which was well attended with over 90 people, most of them being operators. Presenters were

from Guam, Saipan, and American Samoa who covered a spectrum of topics for both water and wastewater. We look forward to hosting similar conferences and reaching out to the other islands within our subsection to bring together our operators and professionals from around the region to share techniques and technologies that have helped our utilities.

George Watson Presenting at the Subsection Conference

Another important area we are focusing on is building our training program for the operator's certification test, which is a key goal for us this year. Other than conferences, the AWWA-HIWPS subsection is taking a proactive approach to provide training to our operators from all utilities and private systems island-wide. We focused on gathering a sample of water and wastewater operators and administered a pre-diagnostic test. The results from the pre-diagnostic test will allow us to concentrate in the different areas that our operators need to build on. Training will be aligned to the different levels of certification for both water and wastewater. Soon, operators will be able to take the certification test online when they are ready, which will be administered through the University of Guam. §

Water and Wastewater Operators Taking the Pre-Diagnostic Test

YP Summer BBQ

By Alicia Nakano
Young Professionals Chair

The YP group hosted a summer BBQ on July 15 in pristine Waimanalo. It was a beautiful day to escape the office for the weekend and network with other #YPs and #WPs (wise professionals). We had a great time celebrating summer, hanging out with friends, and meeting new ones. For those of you feeling the #FOMO (fear of missing out) we hope to see you at our 2nd Annual YP Beach BBQ. Thanks @Puna (aka Vice Chair) for holding down the #primelocation all morning and for bringing all the gear. §

YP Field Trip Event at the Kaneohe-Kailua Wastewater Conveyance and Treatment Facilities Project

By Jessica Agsalda

Young Professionals Field Trips/Technical Presentation Committee, Past YP Chair

A Pump Being Lowered and Installed at the Bottom of the Shaft

At the time of the tour, the project site was bustling with activity as the construction team has been working 7 days a week in order to meet next year's consent decree deadline.

The AWWA|HWEA Young Professionals (YPs) in conjunction with American Society of Civil Engineers Younger Member Forum (ASCE YMF) attended a site visit on Saturday, June 24, 2017 to tour the Kaneohe-Kailua Wastewater Conveyance & Treatment Facilities Project. The tour was held by Bowers + Kubota, the City and County of Honolulu's construction managers for the project.

Before the tour began, Bowers + Kubota gave a short presentation about the project and recent work at the site. To begin the tour, the YPs walked through the site, then down a few flights of steps into the Tunnel Influent Pump Station (TIPS) to observe the pump room. Then, the YPs walked the site to observe the construction of the generator building and headworks building. A new construction method called soil freezing was being implemented on-site and the YPs were able to observe this technique from the ground surface while asking our tour guides questions.

Continued on Page 10

We're grateful that the construction team gave us the opportunity to tour this unique project. We hope to visit again when the project is completed within the next year. Special thanks to ASCE YMF and Bowers + Kubota for arranging this event. §

YP and YMF Attendees

MORE IS BETTER! RECRUITMENT CONTEST

Recruit the most new members to
AWWA Hawaii and win cash!

- Winners must be active members on December 31st.
- Member must be listed as the "Referring Member" on new member application.
- All applications must be received between January 1, 2017 and December 31, 2017.
- This Hawaii Section promotion is in addition to the AWWA Refer a Member Get Rewarded campaign. See page 8 for more information on the Refer a Member offer from AWWA.
- First Place: \$100
- Second Place: \$50
- Third Place: \$20

One AWWA Operator Scholarship

The Water Equation
Keep Water Knowledge Flowing

 American Water Works Association
Hawaii Section

Attention all operators.

The AWWA Hawaii Section will be providing two scholarships for \$1,000 each thanks to AWWA's The Water Equation Campaign and the AWWA Hawaii Section. There are some basic criteria you need to meet to show you are working towards your certification.

Eligibility/Guidelines:

- Applicant must be a current water operator or seeking to enter the water operator profession
- Applicant must be pursuing an Operator's License or Certification, two or four-year degree related to the water operator profession, or professional development
- Disbursement of the funds will be made directly by the Section to the financial office of recipient's college, university, or technical school
- Items related to books, manuals, conferences, professional development courses, and other eligible expenses will be reimbursed to recipient upon presentation of eligible receipts
- Applicant must reside or work within the geographical boundaries covered by the sponsoring Section
- Acceptance of scholarship constitutes permission to use recipient's name and scholarship story for purpose of promotion

Application Process:

All applications will be reviewed by the AWWA Hawaii Section Executive Committee for completeness and merit. A maximum of two applicants will be chosen for a \$1,000.00 scholarship.

Please send your application to:

Jeff Pearson
c/o Operator Scholarship
19 Uahaa Place
Wailuku, Hawaii 96793

Please see the form on the following page or visit the [AWWA Hawaii Section Scholarship Page](#) to download the PDF form. If you have any questions, please call Ken Ota at: 808 870-7913. Good luck!

Attention first year members!

RENEW AND WIN!

Renew your membership and be automatically entered
for a chance to win

FREE MEMBERSHIP FOR A YEAR
paid for by the Hawaii Section.

- Only first year members who joined between January 1, 2016 and December 31, 2016 are eligible
- Membership renewal must be between January 1, 2017 and December 31, 2017
- Two (2) members will be randomly selected to win

Protecting your Assets

Coated for Life.

- A quality coating system, combined with appropriate cathodic protection, ensures the longest service life possible for buried metallic pipe.
- Corrosion shortens pipe service life but is also preventable using proven, cost-effective measures.
- Even non-metallic pipe materials will lose strength and corrode over time.
- Northwest Pipe Company offers steel pipe with a range of AWWA coatings to meet the demands of differing soil types and environmental conditions—making steel the ideal choice for mid to large-diameter water and wastewater applications.

Northwest Pipe Company is the largest manufacturer of engineered steel pipe systems for municipal water and wastewater applications in North America.

Newsletter Advertising

The Hawaii Section of the American Water Works Association (AWWA) is currently seeking advertisers for its quarterly newsletter. Advertising provides a direct message to a population of over 600 members state-wide who are in need of the products or services being advertised. Although we have switched to electronic distribution of the newsletter, we feel that there is still equal benefit to advertising in the electronic newsletter as with the printed newsletter. In addition, advertising in the electronic newsletter can be in full color.

Please be aware that advertising in the newsletter is available only to businesses related to the drinking water field. Please also note that all advertisements will be submitted for review and approval by the AWWA Hawaii Section Board of Trustees for ad content.

Item Number	Ad Size	Ad Size (wxh)	Cost Per Issue
(1)	1/8 Page	3 ½" x 2 ¼"	\$35 (business card)
(2)	1/4 Page	3 ½" x 4 ¾"	\$55
(3)	1/2 Page (H)	7 ½" x 4 ¾"	\$80
(4)	1/2 Page (V)	3 ½" x 9 ¾"	\$80
(5)	Full Page	7 ½" x 9 ¾"	\$110

To advertise in the AWWA Hawaii Section Newsletter, simply complete the application form below.

Ads must be in a "camera ready" form, as a *.jpeg or *.tif, and must have a minimum resolution of 225 dpi – maximum resolution of 300 dpi.

Newsletter Articles

AWWA members are welcome to submit articles for the Newsletter. Please contact the editor for information.

Submissions for the Fall Newsletter are due by
Friday, November 10, 2017.

Production Information Newsletter

The American Water Works Association Hawaii Section newsletter is published to inform its members of Section and International AWWA activities, meetings, educational opportunities and other matters of interest to the water community.

The mention of trade names for commercial products does not represent or imply an endorsement by AWWA Hawaii Section.
