RMSO 2017

By Juanita Colon, Audrey Yokota, and Daryl Hiromoto

The 2017 AWWA Region V Regional Meeting of Section Officers (RMSO) was held in Whitefish, Montana at the Grouse Mountain Lodge from September 8th through the 10th and was attended by Director Daryl Hiromoto, Chair Juanita Colon, Secretary Susan Uyesugi, and Treasurer Audrey Yokota. The Sections represented at the RMSO were Cal-Nevada, Texas, Montana, Intermountain, Pacific Northwest, Western Canada, British Columbia, and Alaska.

AWWA President Brenda Lennox and AWWA Section Services Rep Terry Walters along with a couple of staffers from the Denver and DC offices were also in attendance.

To kick off the RMSO, a welcome reception hosted by the Montana Section was held Thursday evening at the Grouse Mountain Lodge. This provided us with an opportunity to catch up with fellow Section officers and meet new Section members.

For the next day and a half, Section officers were strategically placed throughout the meeting room to provide a broad base of knowledge for Section members and allow them to have more interaction with other Section leaders while we discussed topics like Total Water Solutions, Building a Stronger Organization through Inclusion, and Beyond 50,000 Members. During the Total Water Solutions discussion period, each table discussed current efforts underway in each Section regarding drinking water, wastewater, reuse, and stormwater. The Sections then shared what they are doing/have done in their Sections. Having heard what other Sections did, we then discussed ideas we heard that we may utilize in our own Sections. Some ideas shared: Texas – forming a source water protection committee; British Columbia – climate change conference, value of water campaign, energy recovery/waste recovery; Pacific Northwest – obtaining grants for programs, outreach to elementary schools during water week. Also discussed during the Total Water Solutions continued on page 2
Solutions section was the WaTER-X program on the AWWA website. A presentation by Chair-Elect Ron Tamada from the Texas Section and the Association’s DMIC committee on Building a Stronger Organization through Inclusion provided some insights into the diversity of the Association and Sections. Beyond 50,000 Members was a visioning exercise lead by AWWA President Brenda Lennox of what we would want the 2020 membership number to be at and how we would get there.

Wendie Wilkes from the D.C. office provided us with updates on legislation occurring in Washington D.C., and Cari Russie from the AWWA Staff shared an update on Student Engagement. The Intermountain Section shared that within their Section, everyone who applied for a scholarship received a one-year student membership as a way of engaging students.

Next year’s RMSO will be in Sitka, Alaska from August 15-17, 2018.
Chair’s Message

By Juanita Colon
Hawaii Section Chair

I hope you all had a great Thanksgiving and are looking forward to the holidays and spending quality time with your family and friends. As this is the season of giving thanks, I want to mahalo all of you for all that you do for the Section and all that you do for our communities that we service. Not just in our everyday jobs but for the service we provide outside of our duties by being mentors, coaches, and community leaders. Through you all, we make our island home a better place to live and work.

The 2018 Pacific Water Conference theme is “I Ola Pono Nā Wai Hawai’i: Enhancing Hawai’i’s Water Environment” and will be held February 7th and 8th at the Hawai’i Convention Center with Pre-Conference Workshops kicking things off on Tuesday, February 6. AWWA Conference Chair Susan Mukai, HWEA Chairs, and hard-working committee members are putting together a great technical program for all attendees. Don’t forget to join us as we cheer on our operators in the Pipe Tapping and Top Ops competitions. Registration is now open.

Reflecting on the last couple of months, we saw the devastating effects of natural disasters across the country from wildfires in California, Washington, and Montana to hurricanes in Florida, Texas, and Puerto Rico. I want to remind everyone that our island communities are not immune to these disasters and we should all be prepared to respond to an emergency or natural disaster within the context of our jobs but also within our own families. Be safe and be prepared.

Hope to see you all at the 2018 Pacific Water Conference. Have a great holiday season!

Mele Kalikimaka ame Hauoli Makahiki Hou!! §
We recently attended the Region V-Regional Meeting of Section Officers (RMSO) in Whitefish, Montana. I’d love to say “beautiful Whitefish, MT” but we could hardly see it. Unfortunately, there were wildfires throughout the area and it looked like the heaviest vog x3. Even then, the beauty of Montana was still evident through its people. They were very friendly and open to us visitors. Thank you to the Montana Section for their hospitality and for doing their best to accommodate us even if the conditions were not ideal. Elsewhere in this issue you can read more about the meeting.

Here’s an update on the AWWA2020 project that the Association wanted to share with its members:

AWWA2020 Project Update
The Strategic Coordination Team is pleased to bring you an update on AWWA2020 – A Path to One AWWA project. AWWA2020 is part of a five-year journey started by Past President Charlie Anderson to bring the Association and Sections closer together. Through collaborative efforts between Section and Association Staff and Volunteers, a plan focusing on the business relationship between the Sections and the Association in five major areas is being implemented.

In past communication efforts, we have focused on the tasks and projects we have completed. In this video update, (https://vimeopro.com/texasawwa/awwa2020pathtooneawwa) we’re taking a different approach. Several members of the Strategic Coordination Team will share with you the vision of AWWA2020, not only from an internal perspective, but from a member and public perspective as well. We hope this video will provide you an opportunity to think about the future AWWA2020 will create.

In the next newsletter I’ll be able to report on the Winter Board Meeting which will be held in Savannah, Georgia. Maybe I can use the word “beautiful” then.
Hafa Adai! The subsection held our 3rd Annual AWWA-HIWPS general meeting for members on November 16, 2017. The meeting covered the election of new officers, training calendar, and our annual conference. Members were encouraged to share their ideas, topics, and technical sessions they would be interested in. A majority would like to see technical sessions that complement their professional skills, and others would like to have a full-out complete breakfast for the conference. There were no objections to either idea.

Furthermore, John Riegel from Brown and Caldwell presented during the meeting on the current labor issues in the CNMI and Guam. This has made it difficult with ongoing and upcoming infrastructure projects.

We have started our operator certification training program. One of the first classes that was held was the Cross Connection Control training for several of our members which was provided by Simon Watson from Brown and Caldwell.

Our other training classes being conducted at this time are General Water and Wastewater Operations and Operator Basic Math which is being taught by Ken Rekdahl, P.E. from Duenas Camacho & Associates and Pete Diaz, P.E. from AECOM. Finally, the University of Guam has received the go-ahead from the Guam Environmental Protection Agency (GEPA) and the Association of Boards of Certification (ABC) to start proctoring the operator’s certification test. We are anticipating the first set of online testing to be performed in the last week of November.
The 2018 Pacific Water Conference is just a few months away! It will be taking place from February 6-8, 2018 at the Hawaii Convention Center. The conference committee, spearheaded by Puna Kaneakua, Emily Dong, and myself, has been working hard to provide attendees with a memorable and valuable experience.

Registration is now online for the conference at pacificwaterconference.com. Early bird registration is available through Friday, December 15, so don’t wait until the last minute to register!

The Technical Program Committee, made up of Mark Ohigashi, Keri Ann Ogoshi, Dr. Roger Babcock, and Amy Baek, has notified speakers that their abstracts have been accepted and has put together a tentative schedule that is now available online on the AWWA Hawaii Section and conference websites. In addition to the two-day technical program, there is also the Pre-Conference which takes place on Tuesday, February 6. There will be 5 Pre-Conference tracks:

- Water Operators
- Wastewater Operators
- Wastewater—Pump Station Design/Smart Utilities Workshop
- Young Professionals (YP)
- The ArcGIS Platform: When Your Data Flows, So Does Your Water

We are also encouraging more Young Professionals to sign up for the YP Pre-Con track this year by offering a $50 discount code to YPs who sign up for the YP Pre-Con. Prior to payment, there is a box where the code PWCYP can be entered to receive $50 off registration to the YP Pre-Conference. YP Chair, Alicia Nakano, has been working hard to put together an exciting YP Pre-Con track so we hope to see all the YPs there!

The Contributions letter and Golf Tournament flyer have been sent out and can be found on the AWWA Hawaii Section and conference websites. The Golf Tournament will be taking place on Friday, February 9, 2018 at Kapolei Golf Course.

If you have any questions, please feel free to contact the Conference Chairs at pacificwatercon@gmail.com.
YP members participated in a community service event at Ho`oulu Aina, a 100-acre nature preserve in beautiful Kalihi Valley. We spent the morning learning about the spirit of the #aina and helping to heal the years of development on the land. Some members cleared invasive brush and trees then #reused them as terracing for future native plants. Others planted gardenias and helped to clean Hawaiian rock walls by removing invasive plants and weeds. Banana trees were cut down, and the leaves and trunks were shredded to be #repurposed as nourishment for a nearby dryland kalo patch. Thanks @Brittany Cody #YPCommunityServiceChair for organizing an awesome event. §
YP Luncheon
By Jessica Agsalda
Young Professionals Field Trips/Technical Presentation Committee, Past YP Chair

The AWWA|HWEA Young Professionals (YPs) held a luncheon on Wednesday, August 23, 2017 with presentations made by our own YPs. Special thanks to Brittney Higuchi (Honolulu Board of Water Supply), Sabrina Diemert (University of Hawaii at Manoa), and Jordan Fahmie, P.E. (AECOM Honolulu) for presenting on their past and current projects, project challenges and lessons learned.

Our YP group is made up of various professionals in the water and wastewater industry; therefore, our committee thought it would be a great idea to hear from our members and learn about what they do at their jobs.

Brittney Higuchi spoke on her experience at the Board of Water Supply (BWS) and her involvement in their education and outreach programs. As someone who has an interest in both teaching and engineering, she finds her work in outreach very fulfilling.

Sabrina Diemert spoke on a previous internship to provide drinking water treatment in a small community in Honduras. We learned of the various challenges she faced to get the project completed in a short time period. It was interesting to hear about the communication challenges she faced as a young engineer in a foreign country.

Jordan Fahmie spoke on an odor control project at an influent pump station located in Honouliuli Wastewater Treatment Plant. Jordan gave a great perspective of what design engineers do in the wastewater industry. This project seemed to involve a lot of data collection that paid off in the end.

Thanks again to our speakers and everyone who attended this event.
I pulled out my Snapchat over the weekend and the 18-year old #millennials were shocked that someone in their late 20’s would Snap. According to an article on CNET, 71% of Snapchat’s users are between the ages of 18-34, overlapping perfectly with our YP group. IMO (In my opinion) organic conversations and face to face networking are no less valuable to us #YPs than #WPs. But #YPs also enjoy laughing at videos and sharing moments of their life through social media. I know that our YPs include #foodies, #doglovers, and #skaters, because I follow their stories and discover lots of things we have in common. #YP helps me develop relationships IRL (in real life) not just a #rolodex. Thanks to @Calvin Ing #YPSocialChair for setting up a sweet social at #WaikikiBrewingCompany. Hope to see everyone at our Holiday Social Event! §
Student and Operator Scholarship Opportunities
By Jeffrey Pearson
Scholarship Committee Co-Chair

With the Pacific Water Conference coming up very quickly, it is time to remind all you AWWA member parents with children in college or planning to attend the Fall 2018 year about the AWWA Scholarship available to current AWWA members in good standing. Please refer to the following pages containing the information sheet and application form. The winners will receive up to $2,000 in scholarship for the upcoming 2018 school year.

This year will be the first year the AWWA Hawaii Section is offering two $1,000 scholarships for operators. Please see the following pages for the information sheet and the application form. Please direct any questions by email to: jeff.pearson@hawaii.gov.

The scholarship forms can also be downloaded from our Hawaii Section website at https://www.hiawwa.org/scholarships/.

Good luck, and see you at the awards lunch to collect your scholarships. §
SCHOLARSHIP PROGRAM 2018

PURPOSE
To provide financial assistance to AWWA Hawaii Section members and their dependents in their quest for higher education, and to encourage academic and social excellence.

ELIGIBILITY
- Any current dues-paying “Member” of the AWWA Hawaii Section* or “Dependent” (person claimed as a dependent on most recent income tax return) of a current dues-paying member of the AWWA Hawaii Section* is eligible.
- Applicant must be a senior in high school and working toward full-time enrollment at an accredited college or university or a full-time student enrolled in courses leading to a Bachelor or Graduate degree at an accredited college or university.
- Financial need is not a criterion.
- Engineering major is not a criterion.
- Previous scholarship recipients in 2015 through 2017 are not eligible.
- Previous two-time AWWA Hawaii Section scholarship recipients are not eligible.

* Must be a current member of AWWA Hawaii Section for a minimum of 3 months as of the date of the application deadline (specifically, member since September 15, 2017) to be eligible.

APPLICATION SUBMITTAL REQUIREMENTS
1. Completed AWWA Hawaii Section 2018 Scholarship Application form.
2. Official school transcript of education (typically bears school’s embossed seal). Photocopies of transcripts, self-printed progress reports (example: campus reports, degree audit reports, etc. printed off of the internet) are not acceptable.
3. Brief essay relevant to scholarship application (maximum two pages double-spaced text).

SELECTION
Consideration will be given to applicants who are dedicated to their studies, have set goals for themselves, and have developed a desire for post-high school education.

AWARD
- A maximum of two $1,500 scholarships will be awarded for 2018.
- The Scholarship Committee’s decision will be announced at the 2018 Pacific Water Conference (Joint AWWA Hawaii Section | Hawaii Water Environment Association Annual Conference) on Thursday, February 8, 2018.
- Scholarship recipients and/or parent-member(s) of scholarship recipients and their spouse(s) will be invited to attend the Conference awards luncheon.
- Awards will be available for Fall 2018 and will be presented to the recipient upon proof of college/university registration.

APPLICATION DEADLINE
All applications must be received by Friday, December 15, 2017. Please submit application to:

AWWA Hawaii Section
Scholarship Committee – Jeffrey T. Pearson, P.E.
P.O. Box 621; Honolulu, HI 96809
# 2018 Scholarship Application

1. Applicant Name: __________________________ Social Security No. (last 4 digits): ____________

2. Contact Information

8. Please attach your *official* school transcript of grades for your two (2) most recent school years. (Unofficial transcripts, such as self-printed progress or audit reports, are not acceptable.) If the transcript shows your social security number, please redact it so only your last 4 digits are shown.

9. Please submit a brief essay covering the following (maximum 2 pages, double spaced):
   a. Reason for desiring a scholarship. Indicate to what expense award will be applied.
   b. Academic interest and vocational plans, including any plans for graduate work.
   c. Interests, hobbies, activities, memberships and offices held.
   d. Employment: Type of work, name of employer, address, full-time or part-time; values and disadvantages. As applicable, describe major work since high school graduation.
   e. Any other information you feel may assist the Committee in making a decision.

10. I HEREBY DECLARE that all statements on this application form and attachments are correct and complete.

    Signature: __________________________ Date: ____________

    Received By Signature: __________________________ Date: ____________
Attention all operators.

The AWWA Hawaii Section will be providing two scholarships for $1,000 each thanks to AWWA’s The Water Equation Campaign and the AWWA Hawaii Section. There are some basic criteria you need to meet to show you are working towards your certification.

Eligibility/Guidelines:
- Applicant must be a current water operator or seeking to enter the water operator profession
- Applicant must be pursuing an Operator’s License or Certification, two or four-year degree related to the water operator profession, or professional development
- Disbursement of the funds will be made directly by the Section to the financial office of recipient’s college, university, or technical school
- Items related to books, manuals, conferences, professional development courses, and other eligible expenses will be reimbursed to recipient upon presentation of eligible receipts
- Applicant must reside or work within the geographical boundaries covered by the sponsoring Section
- Acceptance of scholarship constitutes permission to use recipient’s name and scholarship story for purpose of promotion

Application Process:
All applications will be reviewed by the AWWA Hawaii Section Executive Committee for completeness and merit. A maximum of two applicants will be chosen for a $1,000 scholarship.

Please send your application to:
Jeff Pearson
c/o Operator Scholarship
19 Uahaa Place
Wailuku, Hawaii 96793

Please see the form on the following page or visit the AWWA Hawaii Section Scholarship Page to download the PDF form. If you have any questions, please call Ken Ota at: 808-870-7913. Good luck!
# The One AWWA Operator Scholarship APPLICATION

## APPLICANT INFORMATION
Name:  
Address:  
Phone:  
Email:  

## EMPLOYMENT INFORMATION
Employer:  
Address:  
Number of Years at Job:  
Current Position:  
Operator Level:  
Phone:  

Member of AWWA:  
Veteran:  

## HOW YOU WILL USE THE SCHOLARSHIP FUNDS
- [ ] 2- or 4-year Water Operator Related Degree  
- [ ] Technical School  
- [ ] Operator Certification or Licensure  
- [ ] Professional Development Program or Conference  
- [ ] Books and Manuals  

## ATTACH THE FOLLOWING TO THIS APPLICATION FORM:
- One page essay of career objectives and how this scholarship will enhance your ability for professional development and bring value to the water industry.
- Résumé
- Two letters of recommendation/reference

## CERTIFICATION
I certify that the information included in this application is true and complete to the best of my knowledge and I grant permission to AWWA's The Water Equation Campaign and sponsoring Section to release my name and award for promotional use.

Fall 2017
Attention first year members!

RENEW AND WIN!
Renew your membership and be automatically entered for a chance to win FREE MEMBERSHIP FOR A YEAR paid for by the Hawaii Section.

- Only first year members who joined between January 1, 2016 and December 31, 2016 are eligible
- Membership renewal must be between January 1, 2017 and December 31, 2017
- Two (2) members will be randomly selected to win
Coated for Life.

- A quality coating system, combined with appropriate cathodic protection, ensures the longest service life possible for buried metallic pipe.
- Corrosion shortens pipe service life but is also preventable using proven, cost-effective measures.
- Even non-metallic pipe materials will lose strength and corrode over time.
- Northwest Pipe Company offers steel pipe with a range of AWWA coatings to meet the demands of differing soil types and environmental conditions—making steel the ideal choice for mid to large-diameter water and wastewater applications.

Northwest Pipe Company is the largest manufacturer of engineered steel pipe systems for municipal water and wastewater applications in North America.

Save the Date at ACE18

Next year's ACE will be held in Las Vegas at the Mandalay Bay Hotel and Convention Center.

Registration and housing are now open so book your rooms early!

The conference is shifting by one day because of the Las Vegas location. Previously, the pre-conference workshops and the Hawaii Section reception were held on the Sunday preceding the conference. This coming year, both the pre-conference workshops and Hawaii Section reception will be on Monday.

Please save Monday evening on June 11, 2018 for the Hawaii Section Reception!

Click on this link for more info on ACE18:

Bryan Wienand

Free AWWA Student Membership through 12/31/17
Use promo code GIFT when you join.
The Hawaii Section of the American Water Works Association (AWWA) is currently seeking advertisers for its quarterly newsletter. Advertising provides a direct message to a population of over 600 members statewide who are in need of the products or services being advertised. Although we have switched to electronic distribution of the newsletter, we feel that there is still equal benefit to advertising in the electronic newsletter as with the printed newsletter. In addition, advertising in the electronic newsletter can be in full color.

Please be aware that advertising in the newsletter is available only to businesses related to the drinking water field. Please also note that all advertisements will be submitted for review and approval by the AWWA Hawaii Section Board of Trustees for ad content.

To advertise in the AWWA Hawaii Section Newsletter, simply complete the application form below.
