ACE15

By Jeff Pearson, Susan Uyesugi, and Joanna Seto

This year’s American Waterworks Association annual conference, ACE15, was held in Anaheim, California from June 7-10, 2015, at the Anaheim Convention Center. The AWWA Hawaii Section had a strong showing with more than 70 people signing up from Hawaii and our new Guam subsection.

In the past, the Hawaii Section would get together at an early Monday morning breakfast to have a fun start to the conference, make some introductions and brief remarks, and get the conference kicked off for the Section. This breakfast would be followed by a mad rush to get to the Opening General Session on time, where we always seemed to have too few seats assigned to the Hawaii Section. However, due to the higher costs the hotel had quoted for breakfast this year, in excess of $50 per person, and with the rush to the opening session, we decided to try something new.

This year, we held the Hawaii Section get-together on the Sunday night before the conference for a casual talk story with pupu and cocktails. We charged $20 per person as in the past. The event took place at M3 Live Bar and Grill, less than a mile from the conference hotels. Over 70 people attended, with good food and good conversation. It seemed like a successful event so please give your Section officers feedback on whether to repeat this format or return to the breakfast on Monday morning for ACE16.
With time to spare on Monday morning, the Hawaii Section had a great showing at the opening general session. We had an additional two rows of seats compared to last year, and we nearly filled them all. Most members came dressed in colorful aloha attire, armed with a lei or two to share the aloha with other ACE attendees. The Hawaii Section can be proud of our showing at the Monday opening session.

This year the conference was shortened. The exhibitors opened Monday morning as opposed to Sunday, and the conference sessions ended on Wednesday instead of Thursday. Since 1998, Hawaii Section officers and committee chairs have stopped by the booths of exhibitors who attended our Pacific Water Conference earlier in the year. We thanked them for their participation in Hawaii and gave them Hawaiian Host candies as a mahalo. It was a long walk to stop at over 40 booths, but it was well worth it to show these vendors some aloha.

After the opening session, we all went our separate ways to attend various conference sessions and activities, only to get together each night at some of the many after-conference functions that were provided by consultants and vendors. Some of the activities included visiting the Groundwater Replenishment System in Orange County, California which takes highly treated wastewater and purifies it to a quality that exceeds state and federal drinking water standards suitable for replenishing the groundwater basin.
The Big Island Tapping Team of Ted Lindsey, Norris Gonsalves, Roy Miyasaki and Leonard Midallia was ready for the pipe tapping contest again this year. Their best time was 1:56:03 with one 10 second penalty for pipe threads for a total of 2:06:03. That was a great time, however, there were some very fast teams competing, and the team from Mexico took the title. Our guys get first place in my book for their hard effort!

Also this year at ACE15, the Hawaii Section was awarded the Club 7 award for the highest percentage of new members in the past calendar year for AWWA sections of similar size. The Hawaii Section increased membership from 413 to 440 members over all categories of membership. Congratulations to Membership Committee Chair Jason Takaki for his work gathering new members.

We would also like to congratulate John Stubbart for winning the George Warren Fuller Award! This is a huge honor and it was well-deserved.

It was a pleasure to be involved in all the Hawaii Section activities and a joy to see how we all make such a positive impression on so many others at the conference. We look forward to attending next year’s conference in Chicago with all of you. §
Chair’s Message
By Jeffrey Pearson

Hawaii Section Chair

This message is coming to you from your new AWWA Hawaii Section Chair, and I am honored to be here. With all the support I am getting already from the 2015-2016 Executive Committee (Director Ken Ota, Vice Chair Mike Street, Immediate Past Chair Joanna Seto, Secretary John Chung, and Treasurer Audrey Yokota), my one year at Chair will be enjoyable and productive. A MAHALO also to our Board of Trustees (Juanita Colon, Kevin Ihu, Keith Okamoto, Peter Ono, Mike Victorino, Jay Stone, and Rich Hopkins), Committee Chairs (Kyle Augustino, Mike Bungcayao, Joy Gannon, Lorna Heller, Trevor Inouye, Ross Kaneko, Paul Kemp, Marek Kirs, Eassie Miller, Susan Mukai, Dean Nakano, Mark Ohigashi, Paul Scott, Alyssa “Sunshine” Smith, Jason Takaki, and Susan Uyesugi), and Subsection Chairs (Paul Kemp and Christine Richardson).

The ACE15, held in Anaheim, California June 7 - 10, was a busy time for the AWWA Hawaii Section. This is the first year we did not have a Monday Hawaii Section breakfast, opting for a Sunday Night “get-together” at the M3 LIVE Bar and Grill, minutes away from the host hotel. We had about 70 people in attendance to enjoy each others company, have some pupu, and talk story. By all accounts it was a successful event. With Mike Street in charge next year, we will see what the plan is for ACE16 in Chicago.

continued on page 5
There was also a large Hawaii contingency at the Opening General Session the following Monday morning. We were all decked out in aloha attire and armed with leis to share with the unsuspecting people of other sections. As always, there were too many technical sessions to attend and too many after conference functions to attend. Thanks to all the Hawaii Section folks that helped provide a positive showing at ACE 15.

To conclude the ACE 15 highlights, the Hawaii Section received an award for our increased membership over the past year. Thanks to Jason Takaki and others for helping to earn this award.

Please sign up for the Safety Workshop on August 6, at the Hilo Hawaiian Hotel. For more information contact Trevor Inouye. We also have a Board meeting scheduled for September 17th on Oahu. More details on the meeting to follow. Please look for Jay Stone’s article in this issue, discussing the upcoming Pacific Water Conference, scheduled for February 2-4, 2016.

It will be a tough act to follow behind Joanna Seto’s tenure as Chair, but I look forward to working with the Hawaii Section, along with Vice Chair Mike Street, to move the Section towards a productive and enjoyable year. §
Director’s Message
By Ken Ota
Hawaii Section Director

Good weather... Better learning... BEST networking!

Though I never made it to Disneyland, it was a great conference at ACE15 in Anaheim, California. The Hawaii Section consisted of 75 islanders, spreading the Aloha spirit throughout the four day conference. We made several new friends at ACE15’s Opening Session by passing out beautiful handmade leis to various section neighbors. Thank you all for coming out!

Association Updates from ACE15:

- Brenda Lennox from Pacific Northwest Section will be named AWWA President-Elect at ACE16 in Chicago.
- AWWA officially opened the AWWA India office in Mumbai this past month. Gaurav Sood will serve as AWWA India’s Executive Manager.
- Tracy Mehan was appointed AWWA’s Executive Director of Government Affairs. Mr. Mehan will be our Water Policy Leader in Washington, D.C. on August 3rd. He will be leading the Association’s legislative, regulatory, and advocacy efforts.
- Community Engineering Corps is in full swing. CE Corps helps underserved communities in the United States meeting their infrastructure needs and improve each community member’s quality of life. Alliance with - AWWA, ASCE, and EWB-USA. Two projects were adopted by AWWA this year and are currently working with Virginia and CA/NV Section. AWWA Sections are still just learning about CE Corps and learning about the project process.
- Update on AWWA “Total Water Solutions” – The Association would like to expand the knowledge resources not only in drinking water but also in the areas of wastewater, water reuse, and storm water. Drinking water, wastewater, reuse, and storm water management are very closely linked in today’s world. Reuse water is a viable alternative for many utilities.

Future Dates for ACE:

- ACE 2016 Chicago
- ACE 2017 Philadelphia
- ACE 2018 Las Vegas

Congratulations again to John Stubbart who was honored for the George Warren Fuller Award!

I would also like to thank Maui boy/sandbagger, Jeff Pearson, and Susan Uyesugi for planning our Aloha dinner at M3 Live. §
The Hawai‘i Section of the American Water Works Association and the Hawai‘i Water Environment Association are proud to announce the third annual joint conference now known as the Pacific Water Conference at the Hawai‘i Convention Center from February 2 - 4, 2016. We have received several entries for this year’s theme contest and will announce the winner soon.

Our joint conference committee is hard at work to bring you an exciting, fun, and educational conference. These are some things you can do prior to the conference:

- Help support the conference with a monetary contribution or placing an advertisement in the conference booklet.
- Reserve your exhibit booth soon before the spaces are sold out.
- Submit an abstract to be a speaker. Keep an eye out for a call-for-papers flyer that will be distributed soon.

The conference will feature almost an entire week of activities kicking off with Pre-Conference workshops at the Hawai‘i Convention Center on Tuesday, February 2 with tracks for water and wastewater operators and professionals, as well as a workshop targeted at developing personal and professional skills for young professionals.

The Conference officially opens on Wednesday, February 3. Join us in the Convention Center Exhibit Hall to cheer on this year’s operator competitions featuring HWEA’s Operations Challenge (Part 1) and AWWA’s Pipe Tapping and Top Ops events. Remember to check out the exhibitors showcasing the newest and latest products in the industry. With 6 technical session tracks to choose from, there’s sure to be one that piques your interest. The day will close with the always-popular “Meet & Greet” hosted by the exhibitors in the Exhibit Hall. Catch up with old friends or make new ones.

Thursday’s program will feature HWEA’s Operations Challenge (Part 2) and more technical sessions. The Installation Program and Awards Banquet will be held in the evening for both AWWA and HWEA.

The conference golf tournament will be held on Friday, February 5 at the Hawai‘i Prince Golf Course. Form your own team or compete one-on-one with friends and colleagues.

Conference week will end with a community service event on Saturday, February 6. We look forward to a great turnout just like at this past year’s community service event.

Registration, hotel information, and other details will be posted on the conference web site www.pacificwaterconference.com after August 1. Check the web site after August 1 for more information.

We look forward to seeing all of you at the Conference!
Aloha,
Jay Stone | Scott McAdam | Trevor Inouye | Puna Kaneakua
pacificwatercon@gmail.com
2016 Conference Chairs
The AWWA Hawaii Section source water/wellhead protection workshop was held on May 8, 2015, at the Maui Kahului Airport Courtyard Marriott. The one-day workshop was attended by 39 representatives of the public and private sector, including county water agencies, state agencies, and consultants.

This workshop was intended for field operations and water distribution system operators, engineers, and managers to increase their knowledge on SDWA regulations and procedures in regards to source water/wellhead protection. Daniel Chang, Robert Whittier, Joanna Seto, Norris Uehara (DOH, Safe Drinking Water Branch), Roy Hardy (DLNR, Commission on Water Resource Management), Don Thomas (University of Hawaii), Tui Anderson (Hawaii Rural Water Association), and Alex Butarro (Maui Department of Water Supply) presented on the following topics:

- Introduction to Source Water/Wellhead Protection
- Well Construction & Pump Installation Standards
- Source Water Assessments
- Linkages to Safe Drinking Water Requirements
- Source Water/Wellhead Protection Methods
- Funding Protection
- Wellhead Protection – Financial Assistance Program Projects

On behalf of the AWWA Hawaii Section, I would like to thank all of you for attending the workshop. The Workshop Committee also wishes to thank all the presenters for participating in the workshop, and mahalo to the DOH Safe Drinking Water Branch for their assistance in making this a successful event.
Aftter the success of the first Subsection Conference, the AWWA-HIWPS has begun working with the Section Board and our Hawaii representative, Dean Nakano (Pacific Rim Committee Chair), on budget planning for the coming year.

With summer vacations inhibiting meeting plans, it will likely be September before the Subsection Board can hold a meeting with all present. The current issues are the annual calendar, budget, and synchronization of the Subsection Terms of Office with those of the Section.

As with all AWWA members, the main summer activity has been the National Annual Convention and Exposition (ACE15) in June. The Subsection Chair, Paul Kemp, and Subsection Vice-chair, Geigy Salayon, members Vincent Dueñas, Calvin Yam and Ron Topasña, and Consolidated Commission on Utilities (CCU) commissioners: Chairman Joseph T. Dueñas, Commissioner Francis Santos, Commissioner George Bamba and Commissioner Pedro Guerrero were able to join with Hawaii Section attendees, sponsored by Guam Waterworks Authority (GWA).

As always there were too many desired activities to fit everything we wanted to do into the time of the conference. Even with an early start getting together on Sunday with people with whom we work but don’t often get to see there is always more to do than we can get done.

From the recommendations received after our first Subsection conference that we add a trade show, the Exposition provided an excellent opportunity to reach out to new friends and contacts. The incredible array of presentations also sparked ideas for our next effort. Most of all it was a wonderful time to get better acquainted with our Section. §
Keith Okamoto Named Manager/Chief Engineer of the Hawaii County Water Department

The AWWA Hawaii Section wishes to congratulate Keith Okamoto, Water Utilities Trustee, in his recent promotion to Manager/Chief Engineer for the Hawaii Department of Water Supply. The Water Board unanimously approved Keith after interviewing him and two other candidates in an all day meeting on June 23rd. He will oversee a staff of 168 employees, and an annual budget of over $50 million.

Keith has worked for the Hawaii Department of Water Supply since 1996 and has worked his way through the ranks to become assistant Engineering Division head in 2003, where he also was assigned to oversee the department’s capital improvement projects. Keith replaces Quirino Antonio Jr. who retired after more than 40 years with the department.

We all wish Keith good luck and good fortune in this new challenging position. §

New AWWA Hawaii Section Members

Please welcome our newest Hawaii Section members!

On Saturday, June 20, a small group of volunteers from the Young Professionals (YP) organization of AWWA Hawai‘i Section and HWEA attended its second community service event at the vegetative fire break project in the hills of the Waianae Kai Forest Reserve. Our group was joined by the Young Member Group (YMG) of the Structural Engineers Association of Hawaii (SEAOH) in a combined effort to assist the ongoing project headed by the Waianae Mountains Watershed Partnership (WMWP) and the State Department of Land and Natural Resources.

Last year, the YPs assisted in clearing invasive koa haole by cutting the plants down and applying herbicide to the stumps; so this year, we were able to see the fruits of our previous labor in the form of a large swath of cleared land out planted with native dryland plants like milo, ilima and wiliwili. The cleared area alongside a Board of Water Supply service road serves as an assistive fire break for fighting brush fires that may threaten both the forest reserve in the mountain and homes in the lowland areas of the valley. The work done this year included the arduous, but important, task of removing fire-adapted weeds that are threatening to choke the native plants planted by WMWP staff and local community groups throughout the past year. Good times were had by all while working through social conversation and a misting rain that blessed all of the volunteers. A cool and refreshing lunch were provided by YP and SEAOH YMG for all of the volunteers under the warm West Oahu sun.

Stay tuned for YP’s next community service project! Don’t forget that while these projects are sponsored by the Young Professionals organization, all AWWA Hawai‘i Section members and their guests (unless otherwise specified) are invited to volunteer and have fun!

Finally, if you would like to be the next YP Community Service Chair, please send an e-mail to Mark Ohigashi, YP Secretary, at mohigashi@brwnclald.com.

Photos courtesy of SEAOH
The AWWA|HWEA Young Professionals (YPs) Committee held a general meeting at Nico’s on May 27 and provided pupu for the 10 members that attended. The main purpose of the meeting was to thank the outgoing chair, Susan Mukai, for her hard work during the past years as she moved through the different roles in YP and to welcome the incoming committee members.

Our 2015-2016 YP Committee Members are:

- Chair: Alyssa “Sunshine” Smith
- Co-Chair: Jessica Agsalda
- Secretary: Mark Ohigashi
- Technical Presentations/Field Trip: Susan Mukai
- Social: Greg Castro/Michael Bungcayao
- Outreach: Amanda Tanaka/Stephanie Chin
- Water Conference: Hernan Co
- Past Chair: Susan Mukai

Please say hi to our Committee Members if you see them and feel free to ask them about upcoming YP events.

The Young Professionals (YPs) group held a Social Event at The Social Honolulu on Thursday, April 30. We had a huge turnout of over twenty five YPs and a few seasoned professionals as well. There were many familiar faces, but it was exciting to see new YPs checking out this event. Cliff Lum showed his support for the YP group by showing up and bringing friends.

As always, this was a great networking opportunity and a chance to catch up with people we may not see too often. Thank you to all those who made this event a blast, and we look forward to seeing everyone at our next events!
Upcoming Safety Workshop

The Safety Workshop will be held on Thursday, August 6, 2015 at the Hilo Hawaiian Hotel. The deadline to register is Wednesday, July 29, 2015.

You’re invited to the Big Island where Hawaii’s AWWA workshop committee will present a day-long workshop on trench and electrical safety.

This workshop is an introductory course designed to improve all non-operators, operators, and managers knowledge of the safety procedures for trenching, excavation, shoring safety and electrical safety. Attendees will leave with a well-rounded understanding of safety regulations, procedures, and safe work practices.

SPEAKER
Joaquin Diaz, Mr. Diaz has over 18 years of occupational safety and health management experience. He is currently the Health, Safety, and Environmental Director at Hawaiian Dredging Construction Company (HDCC). Joaquin is skilled at developing and implementing practical solutions for complex problems and is recognized for his ability to achieve positive results through teamwork and effective leadership. With excellent communication and negotiation skills, “hands-on” field safety experience and an understanding of the construction process, Joaquin plays an important role for both preconstruction and construction teams to identify and prevent or mitigate potential safety issues. He is a Certified Safety Professional, Construction Health and Safety Technician, and Occupational Health and Safety Technologist. He is also an OSHA Training Institute Instructor and a member/past chair for the Hawaii Occupational Safety and Health Advisory Committee.

WORKSHOP SCHEDULE
8:30 a.m. - 9:00 a.m.
Registration, Check-in and Continental Breakfast
9:00 a.m. - 12:00 p.m.
1st Session - Trenching, Shoring, Excavation, Hazards identification, Field assessment, Types of trenching and shoring, OSHA/HIOSH permit requirements, Key elements to assure a safe excavation site
12:00 p.m. - 1:00 p.m.
Lunch with General Membership Meeting
1:00 p.m. - 3:30 p.m.
2nd session - Trenching, Shoring, Excavation (continued) and Electrical safety, General requirements, Field assessment, Hazard identification, OSHA requirements

CONTINUING EDUCATION UNITS
Continuing education units (CEUs) will be available for certified water treatment facility and distribution system operators. You must sign in and out on the attendance sheet to get credit. Certificates of attendance will be distributed after the workshop. Presently, the exact number of CEUs that will be assigned to this workshop is not known but will be available following review by the certification board.

WORKSHOP FEE
The workshop registration fee for members is $135.00. Non-members will also be allowed to sign up for the workshop and one-year active membership in AWWA for $314.00 or $207.00 for Operations membership. The non-member registration fee without membership is $204.00.
HAWAII SECTION AWWA WORKSHOP

Topic: Safety Workshop
Date: Thursday, August 6, 2015
Location: Hilo Hawaiian Hotel
Registration deadline is Wednesday, July 29, 2015.

Newsletter Advertising

The Hawaii Section of the American Water Works Association (AWWA) is currently seeking advertisers for its quarterly newsletter. Advertising provides a direct message to a population of over 600 members statewide who are in need of the products or services being advertised. Although we have switched to electronic distribution of the newsletter, we feel that there is still equal benefit to advertising in the electronic newsletter as with the printed newsletter. In addition, advertising in the electronic newsletter can be in full color.

Please be aware that advertising in the newsletter is available only to businesses related to the drinking water field. Please also note that all advertisements will be submitted for review and approval by the AWWA Hawaii Section Board of Trustees for ad content.
