Sitka, Alaska was the site of the 2018 AWWA Regional Meeting of Section Officers (RMSO) held August 15-17, 2018. Hawaii Section attendees included Trustee Susan Mukai, Secretary Kapiolani Street, and Treasurer Susan Uyesugi. Branded the first and oldest city in Alaska, Sitka was the site of the transfer ceremony for the Alaska purchase on October 18, 1867 at a cost of $7.2 million or 2 cents per acre in US currency in 1897.

RMSO kicked off with a get together at Baranof Island Brewery on Wednesday night. The 1.5 mile walk from the hotel took us through Totem Park where we saw thousands of salmon waiting for high tide in order to continue upriver for spawning. We were also cautious and kept our eyes and ears open for any bears along our walk, as there had been a reported sighting in town only 4 days prior to our visit.

Thursday morning started with a Water for People fundraising breakfast at the Harrigan Centennial Hall. Proceeds from the breakfast benefits the Water Buffalos and their Ride with Purpose.

On Thursday night, we enjoyed dinner and boat tour of Sitka Harbor. The tour not only featured great food but also wildlife viewing, and we were able to catch a glimpse of several humpback whales, sea otters, and bald eagles throughout the tour. Located in a temperate rain forest, although Sitka is known for mild and...
cool weather, you could definitely tell we were from Hawaii with our cold-weather gear, including gloves, scarves, and coats, in full effect.

The meeting concluded on Friday right before lunch, with many attendees leaving straight from the meeting venue to the airport to catch their flights home.

Impressions from attendees:

**Susan Mukai:** This was the second RMSO that I have attended, and it was a great chance to meet leaders from other AWWA sections. I was seated with members from the Pacific Northwest, Texas, and Alaska Sections, which provided a broad range of experiences when discussing topics such as membership retention, volunteering opportunities, and scholarships. It was a good opportunity to see what other sections are doing, such as the Pacific Northwest’s YP recruitment video and the large amount of funding going towards their student scholarships. I took a lot of pride in sharing with my group how involved the Hawaii Section YPs are and explained to them how often our YP group plans community service events, field trips, and social events. Some of the major takeaways from the RMSO included:

- Improving communication between the Section and its members
- Increasing scholarship opportunities for both students and operators
- Difficulty with starting and maintaining a student chapter

**Kapiolani Street:** My first experience attending RMSO and visiting Alaska was definitely a memorable one. It was great to meet with members from across our region and learn about the different sections, including the challenges that each section is facing and the commonalities that we all share. As someone that is new to the AWWA Hawaii section, I found the discussions regarding the Association and Section partnerships especially interesting and noteworthy. It reinforced both AWWA’s strategic plan and mission and their renewed commitment to partnering, assisting and strengthening sections nationwide. It also provided me with context for the organization as a whole and an extensive background on its current and future goals and initiatives. I also especially enjoyed Cari Maciolek’s discussion on the final day of the meeting entitled: “Reinvention of the Taylor’s (Elizabeth and Swift): How to Stay Relevant in a Changing Market.” After several section sharing discussions throughout the day, younger membership
recruitment and engagement seemed to be an issue that the majority of the sections are currently facing. Cari provided actionable advice and takeaways and challenged attendees to return to their respective sections and implement some of the strategies she suggested. Another benefit of attending RMSO was meeting AWWA Section Services staff in person and putting a face to the name, including Section Services Manager Nancy Sullivan, Student Program Manager Cari Maciolek and Section Relationship Manager for Region IV Katie Koch, all of whom were very helpful and friendly and offered their assistance and expertise whenever we are in need. I would like to extend my gratitude to the AWWA Section Services staff and the Alaska section for making this meeting possible; although my trip was short, I met many great people from our region, engaged in many discussions with other section representatives and experienced many of the sights, sounds and food that Alaska has to offer!

Susan Uyesugi: Even though I’ve attended a number of RMSO’s in the many years I’ve been involved with AWWA, I still learn a lot by hearing about what other sections are doing and what we could do in our section. Some of the ideas that we could try:

- One Operator Scholarship – since we didn’t have any applicants this year, we could use the money to award “scholarships” to attend workshops.

- Membership – we are always looking at recruiting utilities but what about industrial users or other large users of water?

- Sitka does not treat their water because they have a Filtration Avoidance Determination. In my 32 years at Honolulu BWS, I never heard that terminology. Have to look that one up. §

Hawaii Section Vision Statement

Hawaii Section of the American Water Works Association will be the leading force in the State of Hawaii dedicated to safe drinking water.

Hawaii Section Mission Statement

The Hawaii Section AWWA is dedicated to the promotion of public health and welfare in the provision of drinking water of unquestionable quality and sufficient quantity. The Hawaii Section AWWA must be proactive and effective in advancing the technology, science, management, and government policies relative to the stewardship of water.
Chair’s Message
By Mark Ohigashi
Hawaii Section Chair

Aloha!

As I am writing to you from California during the most devastating wildfires that I remember in my lifetime, I am reminded about how precious water really is and how, in Hawaii, due to the conscientious management of our Hawaii Section water utility members, we are blessed to have a true water "supply." In my hotel room, a sign explains bluntly and direly that from Northern to Southern California, the whole state has been experiencing and will continue to experience crippling drought, so all too politely management requests to "please reuse your towels and take short showers instead of tub baths." *Mark, besides the fact that you are probably not going to honor this request, where are you going with this? Is this leading into a discussion on climate change? Or drought? Or conservation? Or water rights? Or, perhaps even, hotel management?*

And that is my point, water is more than just a drop in the bucket, it is complex: it is a necessity and a commodity, it is abundant and scarce, it can be cheap or valuable, it can be good and bad in both large and small quantities, and it is fragile in that a small drop can poison an entire well or is strong enough to cut steel. Playing devil’s advocate, only a handful of people think that water conservation, while a great thing for protecting the supply of a source, comes at a cost--conservation can cause a dip in revenue for a water utility, putting strain on a capital improvement budget for replacing a pipeline that keeps breaking (and most would argue that that is a bad thing). The complexity of water is a collection of fine lines that we, as water professionals and humans that rely on water, walk each day.

So my message is, as the approaching holiday season reminds us to be thankful for what we have, let's remind each other (even beyond our membership) to not only be thankful for every drop that comes out of our faucets, but to also be thankful for how it got there.

continued on page 6
At our last Board of Directors meeting at ACE18 in Las Vegas, there was a nice presentation on the YP Initiative. It focused on the millennials as they are transitioning into the workplace. Here are some of the interesting facts shared:

- **Millennials (anyone born between 1982-2000) are the largest generation in the workforce. By 2020, most estimates show that millennials will comprise 50% of the global workforce.**

- **5 positives about the next generation**
  - They are the most racially and ethnically diverse generations. They don’t just embrace diversity, they expect it.
  - They are entrepreneurs. 35% have started their own side business to generate more income.
  - They are socially responsible. 63% want their employer to donate to social or ethical causes that they value.
  - They give. 81% have donated money, objects, or volunteer time to causes they care about.
  - They’re tech-savvy. They bring valuable new tech skills to the workplace.

Numbers 3 and 4 were of particular interest as qualities of this generation, especially from an AWWA perspective. They’re socially responsible and they donate their time to causes. The question raised to us was, what can we do to recruit and engage students and young professionals? My answer is, we have a good Diversity/YP Committee chaired by Travis Ota. If you’re a Young Professional or student, please join up with other Young Professionals at their mixers and other events. If you would like to be on the email list, you can let the committee know at: hawaiiwater.yp@gmail.com.
Chair’s Message, continued from page 4

In that same spirit, I would love to hear about our everyday water heroes (doesn’t have to be about an AWWA member). Please send your stories to mohigashi@brwncald.com and maybe it will be published in our next newsletter.

Happy Holidays! §

Director’s Message, continued from page 5

Also, if you have any suggestions for other activities, you can suggest them at the same email address.

Lastly, there was an exercise they had us do which seemed to be a test to show how old you are or (as in my case) how little you know. Here’s some of the easier questions. See if you know the answers (answers at bottom of page):

1. Since 1981, all Chevy Corvettes have been manufactured in this Kentucky City.
2. Wonderlier, Thatsa Bowl, and Classic Sheer are all extensions of what brand?
3. We’ll name the fictional bowling alley, you name the TV show or movie it’s from: Barney’s Bowlorama, Stuckey Bowl.
4. Shirley Jones is best known as the wholesome matriarch of what TV family?
5. Did the following brands die in 2009, yes or no? Max Factor, Kodachrome, RC Cola, Brut cologne
6. Irene Ryan's scholarship fund is for actors and actresses, but she's best known for playing a Grannie on what TV show?
7. What NBA star donned "Grandma's Gear" to become "Grandma-ma" in a series of 1990s Converse commercials?
8. What is #13 on the Periodic table?
9. In Super Mario Bros. 2, what three characters (other than Mario) can you start the game as?
10. Name the top three highest grossing Oscar Best Picture winners of the 1990s (US box office only).

Answers to Director’s Message Trivia:
Hafa Adai and Aloha,

The American Water Works Association, Hawaii Section, Western Pacific Subsection (AWWA-HIWPS), as part of our effort to increase community involvement, recently held a Consolidated Commission on Utilities (CCU) Candidate Forum in conjunction with our General Meeting on October 29th, 2018. The CCU is responsible for overseeing the Guam Power Authority (GPA) and the Guam Waterworks Authority (GWA). The focus for the CCU Candidate Forum was on GWA which provides water and wastewater services on the Island of Guam. The purpose of the forum was to give the candidates running for three elected spots on the Commission a chance to interact with the public and answer questions on their backgrounds and priorities for GWA, should they be elected. Both prepared and live questions were taken during the forum.

Two of the four candidates (William Parkinson and Incumbent Francis Santos) running for election were present, while the other two candidates (Michael Limtiaco and Incumbent Simon Sanchez) were off-island and unavailable. Francis Santos, currently serves as the Vice Chairman, and Simon Sanchez is a past Chairman and currently serves as commissioner for the CCU. Mr. Sanchez provided responses to the prepared questions and a closing statement. The forum was attended by the local media, members of the subsection, employees of GWA, and the local public.

After the forum was completed, our subsection General Meeting was held. During the General Meeting, elections for the 2019-2020 AWWA-HIWPS Officers was conducted. Elected were Aaron Sutton with GHD as the Vice-Chair, Joseph Claveria with Brown & Caldwell as the Secretary, and Garrett Yeoh with GWA as a Trustee. Moving up as the Chairman will be Ken Rekdahl with Duenas Camacho & Associates, and staying on as Treasurer will be Agapito “Pete” Diaz with AECOM. Congratulations to all the incoming AWWA-HIWPS Officers for 2019-2020!
The Young Professionals (YP’s) have been busy with lots of YP events and activities over the past few months! After our Summer events, we went straight into planning more for the Fall. We started off with an Officer’s Meeting at the Lanai at Ala Moana, where the chairs and a few officers showed up to discuss our budget, future events and plans. We also held a Social event at The Social Eatery and Bar, where current YP’s met with new YP’s, talking about work life, social life and challenging each other to dart games over good food and drink (drinks not included).

Aside from social events, the YP’s have also been busy with field trips and community service events. A few members attended the Tour De Trash event hosted by CCH ENV in Kapolei. Members of YP got the opportunity to see first-hand what happens to opala we throw into our grey, green and blue bins. A community service event took place at the University of Hawaii at Manoa, where several YP members teamed up with Chi Epsilon to pick up trash around the roadways of the university. The area around the school was noticeably cleaner thanks to the efforts of Chi Epsilon and YP.

For future events, YP is busy planning new social events, preparing for the upcoming water conference early next year, and recruiting new members to join the Young Professionals. §
12th Biennial Hawaii Water Reuse Conference  
By Lorna Heller  
Water Reuse Committee Chair

The Water Reuse Committee, a joint effort between HWEA and AWWA Hawaii Section, is preparing for the 12th Biennial Hawaii Water Reuse Conference to be held on the island of Maui at Café O Lei at the Dunes at Maui on November 29 & 30, 2018.

The program for the 2018 Water Reuse Conference, “Ho’okahi Wai” - One Water, presents strong technical and informative presentations that engage the participants.

The last day will be a half day of speakers followed by bento lunches and then your choice of attending a free system tour of Maui’s reclaimed water system or golfing at a nearby R1 golf course for only $34.

The Committee has secured a special rate at the Courtyard by Marriott Maui Kahului Airport hotel for $239.00/day (not including tax and fees). Please consider utilizing this facility for your overnight stay.  
Click here to book your group rate for Water Reuse Conference at the Courtyard Maui Kahului Airport

You are invited to see the program and register at:  
http://www.hwea.org/index.php/hweaevents/conference/water-reuse-committee or  
https://hiawwa.org/2018-water-reuse-conference/

Western Pacific Subsection, continued from page 7

A presentation was provided by Maria Lewis with Naval Facilities Engineering Command that focused on the One-Guam Partnership between Joint Region Marianas and GWA, particularly on resiliency. The One-Guam Partnership is taking a total system approach to include interoperability between the GWA water system and Department of Defense owned water systems. Examples of progress under the partnership included two memorandums of understandings, grant funding for GWA’s northern wastewater system and groundwater monitoring to support the Marine Corps Relocation, and cross-training were shared.

We are progressing towards offering local training opportunities for water and wastewater operators on Guam, expanding our technical library and planning for our upcoming 2019 AWWA-HIWPS Annual Water and Wastewater Conference. For the Annual Conference, a tentative date for the third or fourth week of April was decided, with the location and theme to be decided soon.
Coated for Life.

- A quality coating system, combined with appropriate cathodic protection, ensures the longest service life possible for buried metallic pipe.

- Corrosion shortens pipe service life but is also preventable using proven, cost-effective measures.

- Even non-metallic pipe materials will lose strength and corrode over time.

- Northwest Pipe Company offers steel pipe with a range of AWWA coatings to meet the demands of differing soil types and environmental conditions—making steel the ideal choice for mid to large-diameter water and wastewater applications.

Northwest Pipe Company is the largest manufacturer of engineered steel pipe systems for municipal water and wastewater applications in North America.

The 2019 Pacific Water Conference is coming up quickly and will be held from February 19-21, 2019 at the Hawaii Convention Center. Ken Kawahara, Emily Dong, and I have been working hard with our conference committee members to put together a memorable event.

Registration is currently open for attendees and exhibitors. Sign up by December 14, 2018 to get the early bird rate. For AWWA and HWEA members, the early bird pre-conference fee is only $150 (non-member is $200) and the 2-day conference fee is only $400 (non-member is $450). The technical program committee consists of Jeremy Kimura, Jordan Fahmie, Kapiolani Street, Lance Lam, and Jake Shiraki, and they are putting together a strong technical program comprised of 6 concurrent tracks, including a hands-on track in the exhibit hall. The technical program schedule will be available on the website shortly, and you can contact the committee at pwc.technical@gmail.com if you have any questions.

We are offering sponsorship opportunities for both the conference and the golf tournament. If your company is interested in being a sponsor for the PWC, please contact Jay Stone at pwchidonations@gmail.com. Registration is open for the annual golf tournament which will be held at the Hawaii Prince Golf Course on Friday, February 22. Please contact Darnelle Chung at djc@akinaka.com for more information about golf tournament registration and sponsorships.

We have also teamed with the Ala Moana Hotel to provide a group rate for conferees, inclusive of President’s Day Weekend preceding the conference. Please visit the conference website to sign up using the group rate.

We are looking forward to providing you all with a great opportunity to learn more about the technologies, projects, and issues impacting the water and wastewater industries. Please visit the conference website at http://pacificwaterconference.com/ to view the latest updates or contact the conference co-chairs at pacificwatercon@gmail.com.
With the Pacific Water Conference coming up soon, it is time to remind all AWWA member parents with children in college, or planning on attending the Fall 2019 year, about the AWWA Scholarship available to current AWWA members in good standing. Please refer to the information sheet and application form on pages 13 and 14 of this newsletter. The winners will receive up to $3,000 scholarship for the upcoming 2019 school year.

At our Pacific Water Conference last year, there were many highly qualified applicants, making choosing recipients very difficult. Let’s have that “problem” again this year. Get your applications in before the deadline of December 21, 2018.

In addition, this year will be the second year AWWA Hawaii Section will be offering two $1,000 scholarships for The One AWWA Operator Scholarship. Please see the information sheet and the application form on pages 15 and 16 for more information. Please direct any questions by email to: jeff.pearson@hawaii.gov.

Please see the forms on the following pages or visit the AWWA Hawaii Section Scholarship Page to download the PDF form. Good luck to operators and college students, and see you at the conference where we announce the winners. §

First Year Members!
Renew and WIN

Renew your AWWA membership and be automatically entered for a chance to win an additional year of membership paid by the AWWA Hawaii Section.

The Fine Print
• Open to all members that joined the Hawaii Section in 2017
• Must renew your membership between January 1 and December 31, 2018
• Random drawing to be held at the Pacific Water Conference 2019
• An AWWA Hawaii Section exclusive
PURPOSE
To provide financial assistance to AWWA Hawaii Section members and their dependents in their quest for higher education, and to encourage academic and social excellence.

ELIGIBILITY
- Any current dues-paying “Member” of the AWWA Hawaii Section® or “Dependent” (person claimed as a dependent on most recent income tax return) of a current dues-paying member of the AWWA Hawaii Section® is eligible.
- Applicant must be a senior in high school and working toward full-time enrollment at an accredited college or university or a full-time student enrolled in courses leading to a Bachelor or Graduate degree at an accredited college or university.
- Financial need is not a criterion.
- Engineering major is not a criterion.
- Previous scholarship recipients in 2016 through 2018 are not eligible.
- Previous two-time AWWA Hawaii Section scholarship recipients are not eligible.
  * Must be a current member of AWWA Hawaii Section for a minimum of 3 months as of the date of the application deadline (specifically, member since September 15, 2018) to be eligible.

APPLICATION SUBMITTAL REQUIREMENTS
1. Completed AWWA Hawaii Section 2019 Scholarship Application form.
2. Official school transcript of education (typically bears school’s embossed seal). Photocopies of transcripts, self-printed progress reports (example: campus reports, degree audit reports, etc. printed off of the internet) are not acceptable.
3. Brief essay relevant to scholarship application (maximum two pages double-spaced text).

SELECTION
Consideration will be given to applicants who are dedicated to their studies, have set goals for themselves, and have developed a desire for post-high school education.

AWARD
- A maximum of two $3,000 scholarships will be awarded for 2019.
- The Scholarship Committee’s decision will be announced at the 2019 Pacific Water Conference (Joint AWWA Hawaii Section | Hawaii Water Environment Association Annual Conference) on Thursday, February 21, 2019, at the Conference Awards Luncheon.
- Scholarship recipients and/or parent-member(s) of scholarship recipients and their spouse(s) will be invited to attend the Conference Awards Luncheon.
- Awards will be available for Fall 2019 and will be presented to the recipient upon proof of college/university registration.

APPLICATION DEADLINE
All applications must be received by Friday, December 21, 2018. Please submit application to:

AWWA Hawaii Section
Scholarship Committee – Jeffrey T. Pearson, P.E.
P.O. Box 621; Honolulu, HI 96809

One AWWA Operator Scholarship

The One AWWA Operator Scholarship is funded through the support of AWWA’s The Water Equation Campaign and the AWWA Hawaii Section.

**Purpose of Award:**

AWWA’s The Water Equation Campaign and the AWWA Hawaii Section will award the One AWWA Operator Scholarship in the amount of $1,000 for Water Operator training and education.

Scholarship award can be used for certification/licensure, two-year water related associate degree, technical school program, professional training program, books and manuals, and operator related conferences.

Each scholarship recipient will receive a one-year AWWA Operator membership.

**Eligibility/Guidelines:**

- Applicant must be a current water operator or seeking to enter the water operator profession
- Applicant must be pursuing an Operator’s License or Certification, two or four-year degree related to the water operator profession, or professional development
- Disbursement of the funds will be made directly by the Section to the financial office of recipient’s college, university, or technical school
- Items related to books, manuals, conferences, professional development courses, and other eligible expenses will be reimbursed to recipient upon presentation of eligible receipts
- Applicant must reside or work within the geographical boundaries covered by the sponsoring Section
- Acceptance of scholarship constitutes permission to use recipient’s name and scholarship story for purpose of promotion

**Application Process:**

All applications will be reviewed by the AWWA Hawaii Section Executive Committee for completeness and merit. A maximum of two applicants will be chosen for a $1,000 scholarship.

Please send your application to:

Jeff Pearson  
c/o Operator Scholarship  
19 Uahaa Place  
Wailuku, Hawaii 96793

Or email to: jeff.pearson@hawaii.gov

Please see the form on the following page or visit the AWWA Hawaii Section Scholarship Page to download the PDF form.

Newsletter Advertising

The Hawaii Section of the American Water Works Association (AWWA) is currently seeking advertisers for its quarterly newsletter. Advertising provides a direct message to a population of over 600 members statewide who are in need of the products or services being advertised. Although we have switched to electronic distribution of the newsletter, we feel that there is still equal benefit to advertising in the electronic newsletter as with the printed newsletter. In addition, advertising in the electronic newsletter can be in full color.

Please be aware that advertising in the newsletter is available only to businesses related to the drinking water field. Please also note that all advertisements will be submitted for review and approval by the AWWA Hawaii Section Board of Trustees for ad content.
