We Believe:

High Quality Education
Providing the highest quality education for our students is essential in order to prepare each student for his or her practice and career.

Inter-Professional Collaboration
We can affect change and transformation by working with other professionals to improve health care outcomes.

Safe & Competent Professionals
Safe and competent health professionals can be prepared through high quality education.

Power in a United Approach
There is benefit in the “the power of n” where whole is better than the sum of separated parts in affecting positive change and transformation in healthcare.

Innovative Solutions
Being creative and innovative in bringing a wide array of valuable solutions and resources to our members.

Critical Role
Allied Health professionals play a vital role in affecting health outcomes, quality of care, and costs.

A High Value Destination
We believe in being a high valued destination for resources in education.

Leadership
We believe in developing our faculty and students into leaders.

Equal Role
Allied Health professionals play an equal role in the transformation for healthcare to health.

Diversity
Leveraging the diversity of our schools and professions by bringing and sharing best practices.
