Section 4. First Aid Measures

Skin Contact: Remove from skin and immediately wash area with detergent. Get medical attention if irritation or ill effects develop.

Eye Contact: Immediately flush with water for 15 minutes and seek medical attention if necessary.

Inhalation: Move to fresh air and seek medical attention if necessary.

Ingestion: Wash out mouth with water provided person is conscious. Never give anything by mouth to an unconscious person. Seek medical attention if necessary.
Section 5. Firefighting Measures

Fire and Explosion Hazard: Combustible liquid. By heating and fire, harmful vapors/gases may be formed.

Fire Extinguishing Media: Foam, dry chemical powder, carbon dioxide (CO2).

Unsuitable Extinguishing Media: Water.

Specific Hazards in Case of Fire: Do not release runoff from fire control methods to sewers or waterways. Under fire conditions, material may decompose to form flammable and/or explosive mixtures in air: Sulfur Oxides (corrosive)

Special Fire Fighting Information: Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full face piece operated in pressure-demand or positive-pressure mode.

Section 6. Accidental Release Measures

Personal Precautions: Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. Ensure adequate ventilation. Wear appropriate personal protective equipment. Avoid breathing mist or vapor.

Protective Equipment: See Section 8.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Cannot enter drains.

Methods and Materials for Containment and Cleaning up: Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Prevent entry into waterways, sewer, basements or confined areas.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills in original containers for re-use.

Section 7. Handling and Storage

Handling Conditions: Keep away from open flames, hot surfaces and sources of ignition. Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Do not breathe mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Do not empty into drains.

**Agitate contents of container before use**

Section 8. Exposure Control/Personal Protection

Exposure Limits: No Information Available

Appropriate engineering controls: Explosion-proof general and local exhaust ventilation. Provide eyewash station.

Personal protective equipment:
Respiratory Protection: If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection.

Hand Protection: Wear protective gloves.

Eye Protection: Tightly sealed safety glasses according to EN 166.

Skin and Body Protection: Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Hygiene Measures: Wash hands before breaks and at the end of workday.
