

The Holiday Gallery strives to exhibit quality local artwork from a wide range of media from 30 artists. As a short term cooperative exhibition, the Holiday Gallery seeks to offer original quality art to the community. The artists work together as a team complementing each other. The artists are not in competition with one another so each medium is unique. Each painter, potter, glass artist etc. is chosen to offer different styles and forms from one another.

Please note that there are limited openings depending on the number of returning artists
