About the platform

- A research project on broadband connection for Dutch shipowners in 2007 led to the start of the Platform Broadband@Sea in 2010.
- Main goal: To exchange knowledge and launch r&d projects in the field of ship to shore interaction and maritime communication technologies
- Activities:
 - Annual meetings (twice a year) in an open and informal setting
 - Substantive contribution to publications, seminars and conferences
 - Marketing and in- & external communication (website, media contact)
- Based in the Netherlands, but welcoming to companies within Europe
- Free for shipowners, member fee for suppliers of (min.) € 600 p/y.
