

2017 Fellowship Program
Prospective Company Commitment

By signing this memo, I am confirming my company's intent to participate in the 2017 cohort of Hacker Fellows. My company is committing to actively interview 2017 fellows with the intention of extending a full-time offer to fellow(s) identified as a good fit for your company. For clarity, I understand that my company is under no obligation to hire a fellow by signing this memo.

This letter acknowledges that although Invest Detroit's salary boost will begin in July of 2017 and last until May 2018, the hired fellow will be considered an at-will employee this is brought on with the intention of long-term employment equivalent to the hiring of any new employee at your company.

I understand that I can reach out to the Hacker Fellows team at any time with questions.
