

## CARDBOARD "LIBRARY BOX" CONSTRUCTION

Purchase one or more "banker's boxes" from Staples or a similar office supply store.

- These are sometimes sold individually or in quantities of 13 for around \$18.99.
- They have white sides which makes decoration easy.

Obtain decorative duct tape available in craft stores, ideally in bright colors, and colorful markers. "Chart" markers work well.

Assemble a box. Wrap a strip of duct tape around the top and bottom for reinforcement.

Keep the lid for later.

Decorate the sides with bright phrases such as "Reading is Fun" and "Take a Book". Add a few birds or flowers or butterflies or balloons to make it lively.

When books are placed in the box the lid goes on top for transportation, then goes on the bottom for added reinforcement. The lid should not be decorated.

That's all there is to it!!!
