MARCH
Indigenous People and Nations Program
Pilot: Distribution of 1,000 filters, and rehabilitation of 3 wells, impacting Hopi and Navajo communities.

FEBRUARY
Texas Storm Uri Response: Over 7,000 cans of water and 255 ZeroWater filters distributed.

2021
MAY
First cross-cultural Water4Schools Event with local elementary schools in NC and Tanzania.

JULY
Nepal Monsoon Response: 225 filters impacting 1,125 people affected by flooding and landslides.

A YEAR OF CLEAN WATER
2021 Year in Review

AUGUST
Haiti Earthquake Response: 850 filters impacting 8,044 people.

OCTOBER
Dominican Republic Water4Schools: W|W’s W4S program partnered with its 50th school in the DR, impacting more than 15,000 students since its inception.

DECEMBER
W|W Nepal team was awarded the RISE by Sundara Fellowship, which includes mentorship, business resources, and seed-funding to start a reusable menstrual pad social enterprise program.

Santa Luzia, Brazil: Project finished, providing clean water to 252 people.

WATER FOR EVERYONE, ALL YEAR IN SANTA LUZIA
Santa Luzia is located along the Amazon river, and when the river was low, community members frequently walked long distances to collect water. In 2019 W|W distributed filters to each of the 42 families. A 12,500 liter reservoir was added and in 2021 pipes finally connected every home to ensure easy water access regardless of the river’s height. This water system is run by their own Water Use Committee who organized the local labor to dig trenches and lay pipes to homes. All 252 people in the village now have water access at their homes and safe drinking water all year round for the first time in the community’s history.

TECH TOTALS:
FILTERS: 10,472
RELIEF + PPE PACKS: 24,854
WELLS DRILLED: 3
HANDWASHING STATIONS: 2,737
COMMUNITY WATER SYSTEMS: 9,789 LIVES IMPACTED
W|W BOXES: 3,141 LIVES IMPACTED
RAINWATER HARVESTING SYSTEMS: 2,504 LIVES IMPACTED

Whether distributing filters or water projects, it’s always better to have representation from the village and from the W|W team. All too often, it’s the village’s project, not our real project. They can develop it. They want it every step. They have to work out their kinks for it. They can push each other and say, ‘Hey! we need to do this together!’

- Jonatan Nieto, W|W Amazon Project Manager
