Our History
The Carter Burden Network (formerly known as The Carter Burden Center for the Aging) was established by New York City Council Member Carter Burden in 1971. Burden, who represented the Upper East Side of Manhattan, founded the center to assist the neighborhood’s large number of elderly residents who were poor, in declining health and isolated.

We have grown from a single center to a network of programs and locations in Manhattan that serves more than 5,000 older New Yorkers every year. We help a growing number of older people lead richer lives with dignity and support.

Our Mission
Carter Burden Network promotes the well-being of seniors 60 and older through a continuum of services, advocacy, arts and culture, health and wellness and volunteer programs, all oriented to individual, family and community needs. We are dedicated to supporting the efforts of older people to live safely and with dignity.

Our Promise
We will always go above. You will always belong.
