Painting with Plastic Easter Eggs

Here’s what you’ll need:

- Tempera paint (This is one of my favorite tempera paints.)
- White art paper
- Plastic Easter eggs
- Paper plates or other surface for paint

Directions:

Start by squirting some tempera paint onto paper plates and add an opened plastic egg to each plate.

Now you’re ready to create! Place the open end of a plastic egg in the paint and use it to stamp circles on your paper.
