A 150-word write-up

Cresignia, which means create significance. Life should be meaningful and with a purpose. Everything could be advanced to create value for society. And ART is always a great tool to convey such believes. I am now a year two student studying Bachelor of Arts (Honours) in Creative Arts and Culture, majoring Visual Arts in The Education University of Hong Kong. I always believe that life should be meaningful. Therefore, I am a person who is willing to learn and willing to try. I enjoy doing something that is meaningful, in the past I have joined the UNICEF young envoys program, the ICAC program etc. Which trained myself to become a more all-rounded person. In the future, I wish to become a community based artist using my strength to work across a wide range of established art forms and contribute to the promotion and development of arts and arts education both locally and internationally.
