

Le Mini Golf Club Tutorial

1. Follow all the instructions from the panel (the golf club front and back are cut out and sewn with the rounded areas snipped). Remember to leave the marked areas unsewn at the top and bottom.

2. Attach a medium sized safety pin through the back piece of fabric at the top of the golf club. Place the head of the safety pin inside the tube of the golf club. Use the pin to slowly guide the club inside out.

Then push out the rounded areas of the putter with a pinky finger.

3. Place a dowel (1/2 inch by 12-1/2 inch) through the top of the golf club. Hand sew the top of the club shut.

4. Use stuffing to fill the putter side of the golf club. When it's tightly packed, hand sew the bottom of the putter closed.

All done! Now you are ready to play Le Mini Golf, Oui!
