IMPORTANT SAFEGUARDS

Always follow basic safety precautions when using your kettle. Read all instructions.

General Safety

- **CAUTION: Do not** touch the base or the glass portions of the kettle while the kettle is operating or immediately after operation. These components get hot and may cause burns or other personal injury.

- **CAUTION: Do not** fill the kettle above the ‘MAX’ line. Doing so may cause the water to boil over during operation and may result in scalding.

- **Always** handle with care when there is hot water inside the kettle. Failure to do so may result in burns or scalding.

- Use the kettle with the specified voltage (120V, 60Hz).

- **Do not** allow children to use or play with this kettle. **Always** keep this kettle and its components out of reach from children. Supervise when children are nearby.

- **Do not** use the kettle if the kettle is malfunctioning, if it is broken or chipped, or if the power cord or plug is damaged in any way. Immediately discontinue use and contact Customer Support (see page 10).

- **Always** unplug the kettle when it is not being used and before cleaning. This will prevent moisture from causing a short circuit in the power base while it is plugged in.

- **Do not** let the cord (or any extension cord) hang over the edge of a table or counter. **Do not** allow the cord to touch hot surfaces.

- Your kettle has a polarized plug (one prong is wider than the other), which fits into a polarized outlet only one way. This is a safety feature to reduce the risk of electric shock. If the plug does not fit, reverse the plug. If it still does not fit, do not use the plug in that outlet. **Do not** bypass this safety feature.

- This kettle uses a short power-supply cord to reduce the risk of entangling or tripping. Use extension cords with care.

- The marked electrical rating of an extension cord should be at least as high as the rating of the kettle (see page 3).

- **Do not** use outdoors. Household use only.

Use & Care

- **Always** place the kettle on a dry, flat surface.

- **Do not** place the kettle on or near heat sources such as stovetops, ovens, radiators, etc.

- **Always** make sure the lid is closed while the kettle is operating.

- **Do not** cover the opening of the kettle while it is operating. Doing so may result in damage to the kettle.

- **Do not** cover the slits near the On/Off Switch.

- **Always** empty and clean the kettle after each use. If necessary, descale the kettle by following the instructions in Descaling the Kettle (see page 8).

- **Do not** immerse the kettle, base, cord, or plug in water or other liquids.

- **Do not** use or attempt to repair this kettle if it is broken or attempt to use or repair the kettle with parts from third-party appliances. Doing so may result in further damage or personal injury and will void your warranty.

- Allow to cool before putting on or taking off parts, and before cleaning.

- Using accessory attachments not recommended by the manufacturer may result in fire, electric shock, or injury.

- To disconnect, use the On/Off Switch to turn the kettle off, then remove plug from wall outlet.

- **Do not** dispose of this kettle with regular household waste.

GETTING TO KNOW YOUR GLASS KETTLE

A. Filter
B. Spout
C. Lid
D. Kettle
E. Heating Plate
F. Indicator Light
G. Power Base
H. Lid Release Button
I. Handle
J. On/Off Switch
**BEFORE FIRST USE**

**Water Test**

⚠️ **CAUTION!**

_Do not_ remove the glass kettle from the package if it is broken. Contact Customer Support immediately to replace your kettle.

This process is meant to test if the kettle is working properly. **Do not** drink the water that is boiled during this initial test.

1. Remove all parts from the package and carefully inspect each part.

2. Completely unravel the power cable, then place the power base on a flat, level surface.

3. Press the **Lid Release Button** to open the lid. [*Figure 1.1]*

4. Fill the kettle with water to the “**MAX**” line, then close the lid. Place the kettle onto the power base and connect the plug to a powered electrical outlet. [*Figure 1.2]*

5. Press the **On/Off Switch** to turn on the kettle. The blue indicator light will turn on. [*Figure 1.3]*

6. The kettle will automatically turn off once it has finished boiling the water. Allow it to cool for at least 5 minutes, then pour out the water.
Boiling Water

Do not attempt to boil other liquids in this kettle. This kettle is only suitable for boiling water.

1. Press the **Lid Release Button** to open the lid.

2. Fill the kettle to the desired level. Remember to not fill above the “MAX” line. [*Figure 2.1*]

3. Close the lid and place the kettle onto the power base. Connect the plug to a powered electrical outlet. [*Figure 2.2*]

4. Press the **On/Off Switch** to turn on the kettle. The blue indicator light will turn on. The kettle will automatically turn off once it has finished boiling the water. [*Figure 2.3*]

**Note:**
- Remember to fill the kettle with water to at least the “0.50L” line. Failure to do so may cause the heating plate to overheat.
- You can stop the heating process by flipping the **On/Off Switch** back up while the kettle is operating.
- This kettle has a dry-run safety feature. If there is no water inside the kettle during operation, it will automatically turn off to prevent the heating plate from overheating.
- If the kettle overheats, fill it with cold water and wait for 2 minutes before resuming use.
CARE AND MAINTENANCE

General Cleaning

We recommend cleaning the kettle after each use.

1. Unplug the power base from the electrical outlet.

2. Allow the kettle to completely cool, then pour out any remaining water.

3. Wash the kettle with warm, soapy water. Dry it thoroughly with a soft, clean cloth.

Note:
- Do not attempt to remove the filter from the lid. Doing so will break the filter.

Descaling the Kettle

You should descale the kettle at least once a week if you use it frequently. Descaling removes any mineral deposits that have built up inside the kettle. Always descale the kettle after it has been stored for long periods of time and before storing it.

1. Fill the kettle with 1 cup of distilled vinegar or lemon juice and 2 cups of water (1:2 ratio).

2. Boil the mixture, then let it soak in the kettle for 2 hours.

3. Pour out the solution, then wipe the limescale away with a cloth or non-abrasive sponge.

4. Rinse the kettle with clean water, and dry with a soft cloth.

5. Repeat as needed.

TERMS & POLICY

Cosori warrants all products to be of the highest quality in material, craftsmanship, and service, effective from the date of purchase to the end of the warranty period.

Cosori will replace any product found to be defective due to manufacturer flaws based on eligibility. Refunds are available within the first 30 days of purchase. Refunds are only available to the original purchaser of the product. This warranty extends only to personal use and does not extend to any product that has been used for commercial, rental, or any other use in which the product is not intended for. There are no warranties other than the warranties expressly set forth with each product.

This warranty is non-transferrable. Cosori is not responsible in any way for any damages, losses, or inconveniences caused by equipment failure by user negligence, abuse, or use noncompliant with the user manual or any additional safety, use, or warnings included in the product packaging and manual.

This warranty does not apply to the following:
- Damage due to abuse, accident, alteration, misuse, tampering, or vandalism.
- Improper or inadequate maintenance.
- Damage in return transit.
- Unsupervised use by children under 18 years of age.

Cosori and its subsidiaries assume no liability for damage caused by the use of the product other than for its intended use or as instructed in the user manual. Some states do not allow this exclusion or limitation of incidental or consequential losses so the foregoing disclaimer may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Additional 1-Year Warranty
You can extend your 1-year warranty by an additional year. Log onto www.cosori.com/warranty and enter your order number (e.g., from Amazon or Houzz) within the first 14 days of your purchase to register your new product for the extended warranty.

If you are unable to provide the order number for your product, please type a short note in the order number field along with the date you received your product.
WARRANTY INFORMATION (CONT.)

Defective Products & Returns
Should your product prove defective within the specified warranty period, please contact Customer Support via support@cosori.com with your order number. DO NOT dispose of your product before contacting us. Once our Customer Support Team has approved your request, please return the unit with a copy of the invoice and your order number.

CUSTOMER SUPPORT

We’re Here to Help!
