SMART AIR FRYER
Cleaning Tips

The Air Fryer

- **Always** clean the air fryer baskets and interior after every use.
- Make sure the air fryer is unplugged and completely cool before cleaning.
- Avoid using metal utensils and abrasive cleaners.
- The baskets may be washed in the dishwasher or with a non-abrasive sponge.
- Clean the inside of the air fryer with a slightly moist cloth or non-abrasive sponge.
- If needed, clean the heating coil to remove food debris.
- Make sure the air fryer is completely dry before using.

For Stubborn Grease

1. In a small bowl, mix 2 tbsp / 30 mL of baking soda and 1 tbsp / 15 mL of water to form a spreadable paste.
2. Use a non-abrasive sponge to spread the paste on the baskets, then scrub.
3. Let the baskets sit for 15 minutes before rinsing.
4. Rinse, then wash baskets with soap and water.
5. Make sure the baskets are completely dry before using.
