What changes do you feel could improve the system?

Text Responses

Ability to print labels for employers used.

Reports - Ability to show pupils who only had 1 week allocated to them and still needed another week arranging. These pupils did not appear on the not allocated list and this would have been useful.

Paperwork - I feel I would have benefited HUGELY by being given the access to amend job opportunity details myself to match the info given to me by employers - this could then be carried out throughout the year as I receive info in from employers'.

I would also prefer to be able to edit paperwork templates to tailor them to suit me better.

I would have like to been able to add attachments to 'messages'.

Also being able to adjust/update job descriptions to individual needs. Maybe an area where schools can add their own notes? Just felt like I was messaging for the smallest of adjustments and although the updates were dealt with very quickly, I had to wait before I could print off which takes more time.

More comprehensive training at the start

When linking the student with a placement, you have to then remember to make sure the correct link is made rather than it just matches but doesn't link them..

Hopefully that makes sense.

Possibly improve the search function as I searched for an employer and couldn't find them but Rachel was able to.

Some of the paperwork is very similar. Found the agreement and Induction very useful.

Being able to view if an visit is booked

Make it more intuitive. Takes 5 moves to get somewhere that should take 1 move. Unnessary clutter for what should be a very simple system.

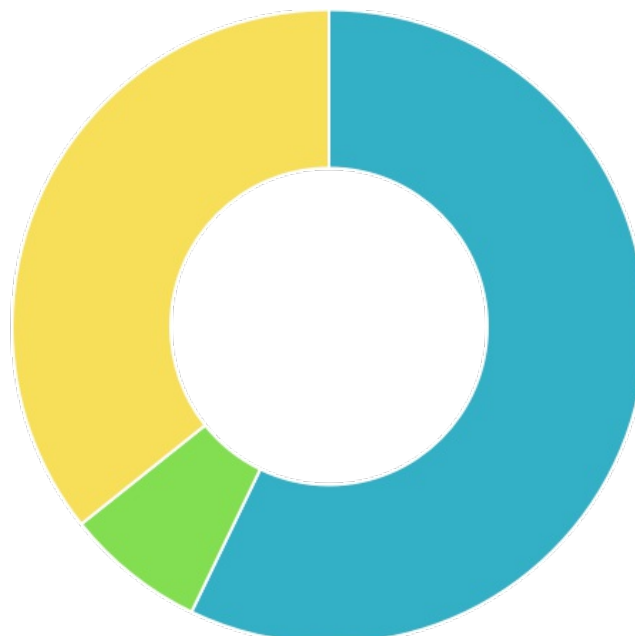

None

We would like to be able to change contact details ourselves. Rachel processes them very quickly and efficiently but we would like to speed the process up if possible. Also when changes have been made, we have noticed that when we try to do a mail merge, the old details have been coming up and we need to change them all individually. We have also noticed some glitches when exporting to excel.

Happy with the database at present.

Q9 - Although placements were all confirmed prior to placements starting they were not confirmed before I had to inform pupils and employers about their allocations which would have made me feel happier about giving out this information.

very helpful in the careers program at the school

I will recommend Connect EB to other schools.
