Answer: 1) Reboot the device to see if it works OK.

2) Charge the device by the charger to activate the battery. Make sure it has power before you operate it.

3) Do not upgrade the OS of the device.

2. Why the standby time is so short sometimes?

Answer: The use time of the battery is all depend on the temperature and use instance. If the temperature is too high or too low, the use time of the battery might be effected. It is suggest using the device in normal temperature. The using time is also affected by increased volume and frequently operation.

THE BOBO BOARD

Charger hole

Power LED

Lights Green in BOBO mode, and Blue in SNOWBOARD mode.

Foot / Hand area

Power button

Long press to turn the power on or off. Short presses to toggle between modes.

Front

QUICK START GUIDE

1

Tablet orientation:

- Place the tablet with a landscape orientation (**A**). Make sure the ports and buttons are on the right hand side of the tablet.
- Go to **SETTINGS > DISPLAY > WHEN DEVICE IS ROTATED** and choose **STAY IN CURRENT ORIENTATION**.
- When playing portrait games, rotate the tablet to the right (**B**). Make sure the ports and buttons are on the bottom.

A

B

2

Make sure the battery is charged BEFORE you use the BOBO.

Power on the BOBO by pressing and holding the power button.

While powering on, the Power LED will pulse green.

Power LED Green:

Default mode (for landscape games).

Toggle between modes by short presses on the power button.

Power LED Blue:

Default mode (for portrait games)

Toggle between modes by short presses on the power button.

3

Make sure the BOBO PRO's Bluetooth is enabled.

Pairing is automatic! Do not try to pair the BOBO with the tablet through the tablet's Settings tool. If you do, the BOBO will not be able to communicate with the tablet.

Wait 10-20 seconds and verify that the egg on the bottom right corner of the tablet wallpaper responds to the BOBO's movements.

If the egg does not respond, wait another minute.

Connect with a Google Play account, download and install the BOBO INDEX app

4

Place the BOBO on an unstable balance training platform (Don't try to use it on the floor. The BOBO will not respond without tilt movements).

Example:

5

Position the BOBO directly in front of your TV / tablet, according to the game mode as shown below.

For LANDSCAPE games:

Power LED Green (default): Game mode facing the screen. The Power Button faces the screen. **(A)**

Power LED Blue: Game mode perpendicular to the screen. The Power Button faces 90 degrees to the left of the screen. **(B)**

For PORTRAIT games:

Power LED Blue (default): Game mode facing the screen. The Power Button faces the screen. **(A)**

A

facing the screen

B

facing 90 degrees to the left

STAND ON THE BOBO

When placing the BOBO it on a low platform (such as a balance disc)

1

Place one foot on one side of the BOBO and apply weight.

The board will tip toward that foot until the edge of the board rests on the ground. Shift your weight entirely onto that leg, holding onto something sturdy for support if necessary.

2

Place your free foot on the opposite side of the board, an equal distance from the center.

3

Shift your weight back and forth until it's evenly balanced.

Just standing on the board like this can be a major challenge at first. Hold onto something sturdy for balance if necessary, but wean yourself off the support one finger at a time as your balance improves.

When placing the BOBO on high platforms (such as BOSU)

1

Place one foot in the middle of the BOBO, and slowly shift your weight onto it.

2

Place your free foot just next to your other foot.

3

Slide your feet apart slowly one foot at a time, without lifting it off the BOBO.

4

Shift your weight back and forth until it's evenly balanced.

Just standing on the board like this can be a major challenge at first. Hold onto something sturdy for balance if necessary, but wean yourself off the support one finger at a time as your balance improves.

NOW YOU'RE READY TO PLAY!

AFTER PLAYING

You can power off the BOBO by pressing and holding the power button. A long beep sounds and the Power LED turns off.

OPERATIONAL SIGNALS

Operational	Visual
Turn on, press button and hold	Status light on – GREEN
Turn off, press button and hold	Status light off

TROUBLESHOOTING

What to do if the BOBO does not connect to the tablet?

- Verify that Bluetooth is enabled on the tablet.
- Turn off the Bluetooth, wait 10 seconds and turn it on again. Wait 10-15 seconds.
- Wait 10-20 seconds and verify that the egg on the bottom right corner of the tablet wallpaper responds to the BOBO's movements. If the egg does not respond, wait another minute. Verify that Bluetooth is enabled on the tablet.
- Pairing is automatic! Make sure you didn't pair the BOBO using the tablet's Settings tool. If the BOBO was paired in this way go to SETTINGS > BLUETOOTH press on BOBOARD3 and choose the FORGET option.
- Verify that the BOBO is turned on (green or blue LED blinking).
- Turn off the BOBO and reset the tablet. Wait until the home screen re-appears. Now, power on the BOBO again and wait for a minute.
- Make sure that the BOBO's battery is charged by connecting the charger cable to the BOBO and checking the charging status.

What should I do if BOBO'S wallpaper has disappeared?

- Long press on the desktop, choose WALLPAPERS and then choose BOBO WALLPAPER

What should I do if the tablet screen orientation changes frequently while using the BOBO?

- Turn off the BOBO.
- Hold the tablet in the correct landscape position (buttons and ports face to the right).
- After 15 seconds the screen orientation will correct itself automatically.
- Go to SETTINGS > DISPLAY > WHEN DEVICE IS ROTATED and choose STAY IN CURRENT ORIENTATION.

What should I do if the tablet screen doesn't appear on the TV screen?

- Make sure the HDMI cable is connected properly at both ends – tablet and TV screen.
- Make sure that HDMI is enabled on the tablet: Go to SETTINGS > DISPLAY > HDMI SETTINGS. Verify that HDMI is ON.
- Make sure that you chose the correct source on the TV.

What should I do if the Status Light is off?

- Try to power on the BOBO by pressing and holding the power button.
- Charge the BOBO, ensuring the cable is properly connected to the USB port. The status light should pulse ORANGE while charging.
- The BOBO does not work while charging!

MEANING OF THE DUSTBIN SYMBOL

Protect our environment: do not dispose of electrical equipment in your domestic waste. Please return any electrical equipment that you will no longer use to the collection points provided for their disposal. These simple steps can help to avoid the potential effects that incorrect waste disposal can cause on the environment and human health. This will contribute to recycling and other forms of re-use of electrical and electronic equipment. Information concerning where the equipment can be disposed of can be obtained from your local authorities.

INFORMATION AND DIRECTION FOR USE

Please observe the following precautions before using your BOBO:

- Inspect the unstable balance platform under the BOBO prior to each use for nicks, tears, punctures or other defects that may cause the unstable balance platform to fail. Do not use an unstable balance platform if damage, punctures or defects are found.
- After placing the BOBO at the center of the chosen unstable balance device, make sure that the BOBO is firmly attached to the balance device surface. Do not use the BOBO if the BOBO glides or slips from the device surface.
- Always use the BOBO and the unstable balance platform on a flat, horizontal and stable surface. Use the BOBO in an open space away from furniture, walls and equipment. Inspect the floor surface for any small objects that could puncture or damage the unstable balance platform.
- During practice, make sure that you have a support such as a wall or a stable table within an arm's reach.
- Do not engage in exercises that require bouncing or jumping while using the BOBO.
- No more than one person should use the BOBO at a time.
- Avoid stepping or standing on the edges of the board.
- Do not use tape, nails or similar devices to attach the BOBO to the unstable balance platform.
- Do not expose the board to liquids or to extremes of heat or cold.
- Do not use the BOBO if you are under the influence of alcohol or any other substance that could affect your sense of balance or perception and cause you to slip or fall.
- The life expectancy of this product depends on how much it is used. As a precaution, the BOBO should be inspected frequently and replaced as necessary.
- An adult must explain all Safety Information and usage guidelines and instructions to all children or people with mental or cognitive problem who are going to use the BOBO. Failure to do so may result in injuries or damage to the system or other property. Observe children during gameplay for proper and safe use of the board.
- An adult should initially assist young children to make sure they understand correct usage.
