Greenhouse Technician

Location: Bentonville, AR - The Greenhouse

Type: Part Time - 20 hours/week

Rate: \$10/hour

Job Description:

The greenhouse technician will help execute hydroponic greenhouse and raised garden production goals. The greenhouse is located on the Brightwater culinary school campus. This position requires knowledge in farming, hydroponic systems, pest management, plant production planning, fertilization management and vegetable production practices. Other programs to help execute include food donation program, CSA program and wholesale production.

Daily Tasks:

The chosen applicant will perform daily tasks such as harvesting, pruning, cleaning tools, trellising plants to wire, recording data, planting, seeding, fertilizing, weeding, mulching and composting.

Experience and Skills:

- Strong verbal and written communication skills.
- Excellent record keeping skills.
- Experience with Microsoft Office.
- Must work in a professional manner with volunteers, culinary students and all participants in greenhouse programs.
- Ability to adhere to all safety standards.
- Ability to perform basic math calculations.
- Ability to operate basic horticulture equipment.
- Tolerate exposure to adverse weather conditions (heat and humidity)
- Ability to lift 50 lbs

Required Education:

- High school or equivalent
- Must be 18 years or older
- Must have valid drivers license

Mission:

Cobblestone Farms helps address hunger by growing fresh local produce for our community. Cobblestone Farms gives 50% of its production to hunger relief efforts in NWA. Our Vision is to unlock the potential of our people & natural resources to help reduce hunger in our community. For more info visit www.thecobblestoneproject.org
