FROM: Utah Division of Wildlife Resources, Sageland Collaborative, and the Intermountain West Shorebird Survey

1 August 2022

TO WHOM IT MAY CONCERN:

The Intermountain West Shorebird Survey in conjunction with the Utah Division of Wildlife Resources, Sageland Collaborative, and other partners is conducting shorebird surveys along the shoreline and associated wetlands of Great Salt Lake from August 9 through August 22, 2022. The holder of this letter and survey team has been given permission by The Utah Division of Wildlife Resources’ (UDWR) Great Salt Lake Ecosystem Program to access state lands within their designated survey area for purposes of this shorebird survey that may otherwise be closed to public use. Additionally, the UDWR and Sageland Collaborative has coordinated with and obtained permission from private parties to access some non-state lands.

If you have any questions regarding this survey or the access issues discussed herein please direct them to:
