### AND OUR ARTIST RESIDENCIES PROGRAM:

House Conspiracy will offer **three-week residencies** to **68 Brisbane-based emerging artists** in our first year of operation. Each artist will be given the **opportunity to showcase** their work in the House Conspiracy space. The residency program will offer 24/7 studio access and will have a strong **focus on collaboration**, and their work will be documented. There are **no costs for artists** associated with the program.

House Conspiracy is located in central West End, right on the CityGlider bus route, up from The Three Monkeys, and across from where The Burrow used to be.

The one rule is this: **each artist must leave a physical mark on the space**, changing it in some way, no matter the medium they work in.
