MESSAGE FROM THE SECTION CHAIR

When I started my career in NDT at the age of 17, my high school guidance counselor had never even heard about Nondestructive Testing. Little did I know that over the course of the next thirty years I would inspect various items that were designed to save lives, take lives, travel at super-sonic speeds, go to the deepest depths of an ocean, and travel into space. I love that about NDT; it is used in nearly every facet of industry and its applicability continues to expand as the methodologies improve.

The advancements that I have witnessed in the NDT field have been extraordinary. Going from analog to digital has enabled NDT to become more capable and in demand than ever. This has opened new techniques and methods of inspection that allow us to offer our customers better service and has raised the caliber of our NDT technicians. Today's inspections require a very savvy NDT technician. In order to stay competitive as a technician or as an NDT service provider you will need to keep abreast of emerging technologies and educate yourself continuously. Don't think of this as a burden but rather as an opportunity to make yourself and your craft more valuable. NDT training schools, online forums, and conference attendance are some of the ways that one could keep informed but my favorite is attendance at the local Greater Houston ASNT section meeting. We do a terrific job of providing leading NDT industry speakers to our members and we always encourage speaker suggestions. The Educational Seminars and Vendor's Night offer additional opportunities for learning about advanced NDT techniques, equipment and training. We also offer five thousand dollars in scholarships to current students.

Our section has a history of strong leadership from people that are passionate about NDT and are willing to take the time to share their ideas. Our section has achieved "Gold" status in ASNT President's Points for five years in a row which is indicative of our continued commitment to member and community outreach. This past year, section members hosted our thirteenth ICPIIT Conference for those involved in the chemical and petroleum inspection industry. Many of our section members also participate on the national level at ASNT and a number of them have received meritorious awards this year. We are truly a fortunate section to have such outstanding individuals in regular attendance.

I encourage visitors and guests to come and check out the Greater Houston ASNT. I also encourage all of our members to routinely attend the section meetings. Please share your knowledge with those just starting into an NDT career, share your experiences with your peers, and share your time and passion by taking an active role.

Remember, it is you, the members and sponsors, who make this section great!

Section Chair
