Capital Projects
Sewer Line Project - Restoration Phase
Final Easement was obtained 12/15/21 so that the Restoration Phase can resume. MP Chavez will be back on site to mobilize after the first of the New Year to complete.

Sewer Line Project – Hazard Mitigation Phase
Staff is preparing for a public meeting scheduled for 1/19/22. The meeting will be available by zoom or in person. The details will be posted on the Project website and PSA’s will also be done. Capital Projects will be reaching out to all property owners to make sure they are extended the invite. The meeting will inform property owners of the work that will be done for this project and how it will affect their property. A forester will be attending and there will be staff available to answer questions.

• Attending Policy Review Committee Meetings.
Library
This week's Santa Story Time and Ride on the Moose Caboose was a big success with approximately 112 attendees! A big thank you to Santa for a story well read and a magic trick for a magical time had by all! There will be no story time for the next two weeks, but we will resume again on Jan 5, 2022. Our new printing software will be installed on Monday, December 20, 2021, which will give patrons the ability to print from mobile devices. Our collaboration with White Mountain Elementary on the Angel Tree was a huge success! We had gifts listed on 46 angels for children and families of White Mountain Elementary and all 46 angels were taken. Gifts on all 46 angels were purchased, wrapped, and returned to the library where they were picked up for distribution to White Mountain Families. Thank you to the community for being so very generous this holiday season! I know the students and their families appreciate it. Happy Holidays to Everyone from the Library Staff and stay safe.

Street Department
The street department is working on Hill, Bear Claw, Stump, and Seer in the Upper Canyon as well as doing sign repair, repairing potholes, and drainage issues.
