Building Sustainable Partnerships for Health Decision-Making and One Health Collaborations

June 21, 2021

John Haynes
Juli Trtanj
Helena Chapman
Improving Health Decision-Making Using Environmental Observations

Global network of governments, organizations, and observers, who seek to use Earth observation data to improve health decision-making at the international, regional, country, and district levels.

Bi-Weekly Teleconferences
AGU Fall Meeting (USA)
GEO Symposium
AmeriGEO Week

GEO Health Community of Practice: [http://www.geohealthcop.org](http://www.geohealthcop.org)
CoP COVID-19 Teleconferences

CoP Work Groups

- Heat-related Health Risks
- Environmentally-sensitive Infectious Diseases
- Air Quality, Wildfires, and Respiratory Health
- Food Security and Safety
- Health Care Infrastructure

Credits: NASA Earth Observatory
Panelists

COVID-19 and Influence of Seasonality
Benjamin Zaitchik

Impact of the COVID-19 Pandemic on Health Care Infrastructure
Andreas Skouloudis

Dengue MOdel forecasting Satellite-based System (D-MOSS)
Gina Tsarouchi
Thank You!
