HAPPY TAIL

Mekko was adopted from HSWM in 2014 as a puppy. His adopters soon found that he had serious anxiety related behavior problems when left alone. Mekko's anxiety increased over time and he couldn't be left alone for more than ten minutes. His adopters worked with HSWM staff on training through our Puppy Behavior classes, but ultimately decided his condition was too much to manage. Mekko was returned to HSWM and for a year our staff worked with him to relieve his anxiety. HSWM knew a perfect fit would be found, one who could train with Mekko.

The adopter was found and Mekko recently celebrated his one year anniversary with his family! He's much better, but is still afraid of the dark. His family has put night lights all over the house for Mekko, which helps him settle! Mekko loves to run and play with his brother Zuke, who was also adopted from HSWM. Mekko's parents told us they can't imagine their family without him. Mekko's "happy tail" was made possible through long-term training and extra love from staff and his forever family.

MEET MEKKO!
