

“The light quality is better than I have ever seen from a bay light, very clean, we can clearly read our work instructions and meter readings. Our electrician said they were an easy install as they were so light in weight that only one person was needed...and at half the cost of conventional lights.” – Production Manager, Shell Oil

APOLLO250 SPECIFICATIONS

POWER: 94.6 Watts

LIGHT OUTPUT: 12,140 LUMENS (250 Watt Equivalent)

EFFICIENCY: 128.2 Lumens/Watt

General Specifications

- | | |
|---------------------------|---|
| • Color Temperature (CCT) | Warm & Natural White
4000K and 5000K |
| • Color Rendering (CRI) | 75+ |
| • Patented Optics | 170 degree Beam Angles |
| • LED Driver | Advanced Smart Cooling |

- **Input Voltage** 120v-277v, 347v & 480v
- **Ambient Operating Temps** -40°C to +60 °C (-40°F to +140 °F)
- **Manufacture & Assembly** United States & Canada
- **Luminaire Construction** Aluminum Circuit Boards & Heat Sink
Polycarbonate & Acrylic Lens
- **Warranty** Lifetime on all Mechanical Parts
Five Year on Electronic Parts
- **100% Field Serviceable**
- **Dimming & Occupancy Sensing Options**

INCREDIBLE BENEFITS

- **Minimum of 70% Savings in Energy Consumption**
- **No Maintenance Costs for 50,000 operating hours**
- **Minimal Heat Emissions and Lower AC Costs**
- **Environmentally Sustainable Design - RoHS and LEEDS compliant**
- **Healthy Natural Light that eliminates Eye Strain & Headaches**
- **Quiet - No annoying humming sounds**
- **100% Recyclable, No Harmful Mercury or Lead**
- **No Maintenance Costs for 50,000 operating hours**
- **Eligible for Rebate and 'Pay From Your Savings' Programs:**
 - ❖ **PG&E's 'ON-BILL-FINANCING' program**
 - ❖ **Amagine's EASYLEASE**
