

EMMAUS MINISTRIES

Promoting biblical literacy for *all* is at the heart of our relaunched program. Whether you're interested in our full biblical studies program, biblical narrative program, attending one of our seminars or retreats - *you* are invited to be a student of the bible.

School of Biblical Studies

From August - May, students in the School of Biblical Studies journey through the entirety of the Biblical narrative, utilizing the Inductive Method (IBS). This **20 hour per week** program integrates academic and spiritual development through one-on-ones, weekly worship and community meals. On-campus housing is available for students desiring a truly immersive and communal experience. Along with participation in the School of Biblical Studies, students have the opportunity to pursue a seminary education or an internship in a local church through our ministry partnerships.

Biblical Narrative Series

The Biblical Narrative Series takes participants on a journey through the Bible alongside our biblical studies students. This **monthly series** tells the story of the Bible through **ten evening lectures** which provide an overview for understanding the Bible as a whole. These lectures will also explore the themes & setting of the books which make up each part of the story. The Biblical Narrative Series is designed to be open to the public and accessible to all types of learners. No experience or outside assignments required.

Biblical Literacy Program

Emmaus partners with the vision of local churches and ministries to see every believer equipped with essential tools to engage their Bible. The Biblical Literacy Program consists of:

- **Why the Bible Matters** *Find out why the Bible is essential to the life of a follower of Christ.*
- **Bible Overview** *Understand the history of God and His people from beginning to end.*
- **How to Study the Bible** *Learn how to observe, interpret & apply the Scriptures for yourselves.*

This program is brought directly to the local church through **seminars and retreats** designed with the participating community in mind.
