THE SPANISH

Not since 1498 have there been so many Spanish hair. Weaves of all kind. Hmmm. No not hair. Here. Ok. Gotcha—The Spanish are here.(Weaves, eyelashes and nails too) And when they're not here, they're apparently in Spanish Harlem, Copa and other "night clubs" and "bars". And just like the Christopher Columbus variety, they're all about their mula.The rest are hopefully just your normal immigrants who work hard despite not speaking an ounce of English. pshh! That's the best bang for your buck.

2 SPEED LIMIT

Everybody bumpin up their gum about the 80km, and this and that, but nobody ain't studyin' the lack of road fatalities since its implementation. Hmmm.

3

RECESSION

Psshht. What recession? Ok yeah there's an economic blah blahh blah of blahh blahh blah, but who around you do you really see taking on the recession or adjusting their spending?

5 POKEMON GO

You know it serious when even yuh granny rolling around in her wheelchair to catch 'em all. Not since colour TV has there been such a technological sensation as epic as Pokemon Go. (Ok probably the airplane, internet, whatsapp, smartphones, yeah, yeah, yeah, we get the point). But Pokemenaia has definately spread everywhere.

SNAPCHAT

The Oxford's dictionary definition of Snap 2010: break or cause to break suddenly and completely, typically with a sharp cracking sound. Snap Summer 2016 definition: Hold and record a video or picture, typically for 10 seconds. To be fair, breaking suddenly and completely can be caused by both definitions.

Have you ever done "it"
on the beach?

Hell yea

When do you think more
hornin' happens, during
Carnival or during Summer?

Carnival for sure.

Patrick Manning shall go down in history as one of the greatest fathers our nation has had.

He always strived for excellence and worked non-stop to ensure a brighter future for not only our nation, but the Caribbean region as well. Mr. Manning was Prime Minister by electoral victory three times in TnT's history-1991, 2002 and 2007. During his tenure, Mr. Manning established a strong economic and energy architecture through decisive policy changes, fueling the country's infrastructure, health system, education and culture.

A Tribute to
Patrick
Augustus Mervyn
Manning

August 17, 1946 -July 2, 2016

On the 17th of August 1946, in the City of San Fernando, Patrick Augustus Mervyn Manning was born. Young Manning received his secondary education at Presentation College, and then went on to earn his Bachelor's Degree from the University of the West Indies at Mona, in 1969. After graduation he returned to Trinidad where he worked as a geologist for Texaco.

Mr. Manning entered Parliament in 1971 representing the San Fernando East constituency, which he dutifully served from 1971

until 2015. Between 1971 and 1978 he served as Parliamentary Secretary in various Ministries before being appointed Junior Minister in the Ministry of Finance in the government of Eric Williams. In 1979 he

was given the additional position of Junior Minister in the Office of the Prime Minister. In 1981 he was given a full Cabinet position of Minister of Information and Minister of Industry and Commerce. Between 1981 and 1986 he served as Minister of Energy and Natural Resources. He was also the Leader of the Opposition from 1986 to 1990 and again from 1995 to 2001.

On 24th September 2007, Manning was rushed to Cuba to resolve issues he was having with his heart. On 23th January 2012, Manning suffered a mild stroke. He was diagnosed with cancer in the lungs, heart and prostate on 30th June 2016 and died of Acute Myeloid Leukemia at 8:15 AM on 2nd July at the San Fernando General Hospital, a month before his 70th birthday.

With his passing we have lost a great leader and an even greater man. Mr. Manning epitomized sacrifice, humility and vision. He was TnT's longest serving Parliamentarian and public servant, who throughout his political career put the greater good of the nation over individual gain. We at SCORCH salute and thank you Mr. Patrick Augustus Mervyn Manning. May you rest in eternal peace.

THE ORIGINAL SCORCH SUMMER CRUISE

The legendary cruise that always starts the summer. And though the weather didn't play along at times, it certainly didn't sour the vibes.

From as early as lunchtime bikinis and coolers were trickling in the Harbour Master carpark and from the moment the boat left the dock it was lit.

Special shoutout to all the hot girls that stayed on the upper deck and partied in the rain. We see you!!

Have you ever done "it"

"I hate having extra cash and I love living pay–cheque to pay–cheque."

- Said no one ever.

Well at least not by a Trini. Who especially in the midst of a recession, job layoffs and a slight increase in some taxes, will pull any reason out of a straw hat as to why they're broke. Mind you, they're broke since Manning was in office, BBM was popping and baggy clothing was the flick, but no—it's this dreadful recession that now has them broke this Summer 16. So to SCORCH some light through their tunnel of brokenness, we provide these rules and tips for FREE; which can be applied by everyone—broke and balling, poor and rich, smart and illiterate...well probably not by the latter, this summer 2016.

PUMPIN'
PROFIT

1. The 80/20 Rule

Whatever you earn, from the largest sum to the most minuscule amount, spend 80% of it and save the remaining 20% like it was the bread and wine from the last supper. So if you earn \$1, spend 80 cents and put aside the remaining 20 cents. Simple.

2. The Tomorrow Rule

Walking down Frederick Street you spot a dress you kind of like and definitely don't need, but its month end so what the hell. Instead of rushing in and dropping your hard earned cash, sleep on it; give it a day or two, and if after that you still feel like you need that dress or whatever it is, go ahead and get it.

3. Invest

The idea here is to have your money working for you, instead of you working for your money. This tip takes skill and can be risky, but the investment into the right business, or idea can pay dividends in the long run.

4. Learn the Difference Between Assets and Liabilities

In remaining along the lines of keeping it simple, an asset is anything that can potentially bring you value or increase in value (Land, gold) and a liability is anything that can potentially cost you, or decreases in value: that new car you just revved out the lot has already lost some of its value by the next day. Summer isn't only about blowing dough, there ample opportunity to rake in cash, with the right entrepreneurial mind.

SAFE SUMMER SEX.

Summer coincides with a lot of beach wear and sexy bods, coupled with a lot of rainy days where sleeping in late and cuddling can easily escalate to kicking in her backdoor. Ok, maybe not that far. But you get the drift.

Cumm this summer sixteen lets abstain from abstinence. let's let the python pounce, let's let the panther prow, let's let the cock crow, let's let the pussy play. In other words, as quoted by pump philosopher Phd. David

Banner, "Run girl, let's get this m#!w wet." Stop sign. Left turn. Right turn. H-A-N-D-B-R-A-K-E. Doh speed. Besides a ticket, you might bounce up STI Street, or crash through Black Chyna's Placenta. Doh beat up, cause this

Summer Sixteen when things are heating up fast, don't cut down the mood with too many questions, cause Trojan has the pleasure you want with the protection you trust. #dontmakeamistake #coveryoursnake

Sippin' Solera

Wines and Spirits

By **ANGOSTURA**

Sippin' on
a drink, sippin'
on a drink!

If a Trini was stranded on a deserted Island and could only take three things with them, the first two things would vary, but the one constant would be something enjoyable to drink. Preferably that something to drink would come in a glass bottle, and its contents far from being tarnished by age, are on the contrary, enriched with the passage of time. AHH yes! We see it now. A bottle or two of your favourite liquor or wine. Now that the question of what is answered, we must answer the question of where to get it. Nestled on the corner of Tragarete Road and Gray Street, Woodbrook; an aptly

wine-coloured building, with secure parking, is the Mecca of Wine and Spirits—SOLERA.

Like Nike is to sports, as Lipton is to tea, so is SOLERA to alcoholic beverages. Backed by two years of customer

focused service and being the brainchild of Angostura Ltd., at SOLERA you are sure to find the right drink for you.

They offer all of Angostura's products: Award-winning, locally manufactured rums and bitters, rum punches, and imported brands of wine, prosecco, vodka, scotch, and more. And for the novice drinker, the expertise offered at SOLERA is unmatched in finding the right drink to suit your palate.

"It is traditionally known that Trinbagonians have a sweet palate," says Ricardo Bideshi, Senior Manager of Marketing at SOLERA, "but with more and more varietals and regions being offered, we are able to help people diversify their tastes, and some are finding that they even enjoy a less sweet wine."

"That doesn't mean the wine has to be dry; it could be medium sweet, with less tannins, and still be very palatable while keeping its

sophistication."

Get it right the first time, shop at SOLERA, convenient, accessible, with all the leading brands of alcohol and some hidden gems you may have never heard of.

Chrome Rims. Oversized spoiler, fender and side skirts. Carbon fiber matte-black finish. Silver tint. Modified suspension. Nos. Sound system. Interior and exterior LED lighting. So many stickers and vinyl that your car's colour is a mixture of Vybz Kartel's complexion, tie-die and the colours you see in a kaleidoscope. Oh, and let's not forget that short stumpy muffler so people two streets away can know your awesome ride is coming through. However, with all these additions that make it look like a 12 year old was playing need for speed with your whip, it fails to answer a major question—HOW did Leicester City F.C. win the Premier League? No, not that question. Is your whip Summer 2016 certified?

1 TRUNK SPACE

Your car better have a big bumper to hold coolers, beach mats, beach chairs and luggage.

2 MUSIC

Define a great Summer 16in three words.

HIGH SOCIETY PRESENTS THE LIFE

The nearest to partying in Miami that Trinidad has to offer. The experience explodes every other Friday and is a hot spot for local and foreign celebrities and socialites. Having an underlying Hip-hop theme it's easy to turn all the way up. Trust the atmosphere is mos def LIT🔥. And to top it off the ambience entails a number of beautiful booths and even hotter bottle hostesses, dance floor lighting, and all the while being entertained by an all star DJ cast to ensure your Friday night pump is always one to remember.

16. R&R

Whether it's on a hammock, a cool early morning walk, or a day in 'bago, trust us when we say to get as much rest and relaxation as you can, because this Summer 16 is going to be rel pace.

15. Summer Body

They're two times of the year the gyms are rammed; a month before Carnival and during Summer. With that being said, don't let that beer belly hang lower than the British stock market after they pulled out of the EU, and ladies, squat, squat and when in doubt, squat some more.

14. Beach

Being blessed to live on an Island, the beach is a year round thing, however beach parties during the Summer means that its time to step your beach game up and not go just once a month, but at least once a week.

13. Explore

We're not saying you have to be Dora or anything, just go on a couple hikes, but don't get lost, and if you do, be sure you have that the Pricemart sized box of Vaseline.

12. Re-evaluate your crew

You are the average of the five people you hang out with the most. Are you an eagle amongst Corbeaus, a lion amongst hyenas, a Barcelona fan amongst

Chelsea supporters? It's half way through the year, don't wait till New Years to start cutting baggage.

11. DDI

It's also a year round activity, but like unwanted pregnancy, should be accentuated during the Summer.

10. Pool Party

A pool party is like a beach party, without the sandflies, scenic landscape and sand getting in your nether regions while you make love.

9. BBQ

Food. Drinks. Good people and even better vibz. Sometimes it's the small things in life that matter, like the morning after pill.

8. The Three S's

Sun, sea and sex—like barra, channa and chadon beni, all three should be combined for best results.

7. Get frunk with driends

Beer, vodka, rum, wine champagne, when is it not a good time to drink with friends?

6. Make Money

Also should be a year round thing, but that project or business idea you've been putting off, why not follow it through this Summer?

5. Go to a concert

Live concerts are the best, not because the music sounds

better—most times your favourite artistes really needed that studio mastering, but the atmosphere makes up for that and more.

4. Get new Summer threads

Go online, go to the mall, buy a kit that you like, not necessarily what's popular, but what you like. Simple.

3. Cruises

Your favourite DJs, ocean breeze and views that would make Drake envious. The only thing better than a boat cruise is going two boat cruises in one day.

2. 騷騷 跣 蠟襪靚
柄沌汰, 灑穢 搥朕惇 龔
齷優 狂娃炫 髮 駝駝 齧
嫖嫖 參 倖 剝哇 誼 趙踴,
打釘气 凜翠熾 鬣 龔 龔
甄 嚮襪 戴 戴 葵 筵 紫 紵
資 餛 駝 鶯 黠 懼 鈎 彭 插
皎 藥 嚙 漏 圪 改 媛.

(Translation: with all the partying, drinking, frolicking and general awesomeness of this Summer 16, we didn't have time to think of 16 Rules, so we posted something in Mandarin, the most Spoken language in the world, to randomly fill the space—plus it looks badass)

1. Travel

No, we don't mean take a maxi down the Priority Bus Route. What we mean is to plan a trip, whether to Tobago, or New York. Go Somewhere.
