

**MOVE**  
**NEW HAVEN**  
Transit Mobility Study

# Who benefits from a successful transit system?

▶ **Community:** Transit is a benefit even if you're not a rider.

▶ **Workers and business owners:** Promotes the economy by providing more travel choices to jobs and educational opportunity and enables growth.

- *Every \$1 invested in public transit yields approximately \$4 in economic benefits.*

- *Over 320,000 jobs and 250,000 households are within a ½ mile of existing bus service within Greater New Haven.*

▶ Provides a lifeline for **seniors, youth, and other transit dependent populations, perhaps a friend, neighbor, or relative.**

- *More than 30,000 households without a car are within a ½ mile of existing bus service within Greater New Haven.*

▶ **Earth:** Reduces parking demand, roadway congestion and carbon emissions. A reduced parking footprint provides more land for new homes and employment opportunity in the downtown.

▶ **All travelers:** Provides travel choice if your first travel method falls through.

▶ **Visitors:** Welcomes visitors to the area who do not want to have to rent a car or pay for taxi service.

▶ **Auto-owners:** Saves money on gasoline and the cost of auto-ownership.

▶ **You:** Provides you with personal time to listen to music, work, nap and other mobile activities.
