

OUR CHILDREN'S EARTH
Think clearly about the future.

OUR CHILDREN'S EARTH FOUNDATION: FRIENDLY FISH MASCOT

Do you live to entertain?

Do you like to dance while in costume?

Are you available on weekends, with your own transportation to get around central California?

Do you want/need some extra money for the holidays or your next vacation or whatever else?

Are you relatively fit, able to carry 30-50 pounds, and willing to sweat a little bit?

If yes yes yes yes yes, we may have the part-time job for you: **Friendly Fish Mascot!**

Our Children's Earth Foundation ("OCE") is looking for applicants who are available and interested in wearing our fish mascot costume at occasional events throughout the San Francisco Bay Area, and possibly also further down the coast in the Monterey Bay Area.

OCE is a 501(c)3 non-profit environmental organization that focuses on legal enforcement, advocacy with natural resource agencies, and public education. Right now we are working to protect California's native fishes, and we want to raise awareness about protecting and restoring fish habitat and about water pollution in coastal areas. Our crowd-pleasing fish mascot will be a boon to these public outreach efforts, particularly with the right person behind the mask!

Please send an email to admin@ocefoundation.org to apply for this flexible, fun, part-time role. Let us know what attracts you to this position, if you have relevant experience and/or interests, and tell us about your availability to attend events during weekends and evenings.

Thanks! We look forward to hearing from you.
