**23. If you were in charge of spending \$5M over the next ten years to improve your county from an economic, social, or physical perspective and these were your options (including ones you wish to add), please allocate the amounts you think make most sense.**

<b>Spending Options</b>	<b>% of funding allocated</b>
Fund the demolition of vacant and blighted properties	0.8%
Incentives for recent college graduates in the region to live in your county	4.5%
Incentives for existing businesses to expand	18.0%
Improvements in sidewalks, signage, bike lanes, recreational trails, or beautification of public spaces	9.8%
Incentives for existing home owners to upgrade their homes	7.0%
Incentives for renters living in your county to buy a home	3.2%
Funds to preserve and protect farmland	20.0%
Incentives for collaboration/coordination between local governments	5.2%
Expansion of drug abuse treatments programs	15.5%
Other	16.0%

**24. Suppose that a \$5M budget over ten years works out to about \$5/month in either extra taxes for each household (or \$60/year), or a cut from the current county budget of \$500,000 per year to pay for these new things. To obtain the above selections, would you prefer...**

	Answer	Count	Percent
1.	Cutting \$500,000/year from the current budget	2	9.52%
2.	Raising \$500,000/year in new taxes	4	19.05%
3.	Some combination of new taxes and budget cuts that would total \$500,000/year	6	28.57%
4.	None of the above are worth either new taxes or cutting from the current budget	2	9.52%
5.	Some of the above may be worth either new taxes or cutting from the current budget, but not in the order of \$500,000	7	33.33%

**Question 25: Please describe any other issue(s) that you would like to add to the list of issues under Question 21. To what extent should your county devote resources to them?**

Lower taxes, not pay for criminal defense over and over, not pay welfare from one generation on to the next. Cut welfare benefits, get a job. Have regular drug testing for everyone on welfare. If tested positive for drugs no more welfare.

County should devote more resources to children and teens that allow them a safe environment for them to do in there spare time.

public health and focus on healthy living and available medical care

Less regulation

## **Question 26: A plan for the future of your county would fail, in your view, if it neglected to...**

take action

Bring business/jobs into Fulton County. A business park near I-70 or I-76 would be a great start.

Plan ahead economically

Aggressively improve REAL job opportunities - not service jobs at Sheetz, Giant, Dollar General. Some of our problems will self-correct if wage earners have the opportunity to take good-paying, LOCAL jobs.

Encourage farming, environmental protection of our water supply and air quality. Encourage business opportunity, stores to move in.

address anything other than money/taxes. That always seems to come first at the detriment of everything else.

be enforced

Properly plan for a real business park; located near Interstate 70 and/or PA Turnpike. That would bring jobs along with providing a real tax base. Those tax dollars could then be used to combat the drug issues and Fulton County's limited funds to properly empower the local criminal justice system to improve public safety.

pursue more economic opportunities for residents and protect our environment and farm land.

Address the hollowing out of our communities...the loss of the best educated and most industrious of each generation.

If the costs would burden the taxpayers. If it forced more regulation onto the citizens. If private property would be seized through eminent domain to provide any Agenda 21 schemes.

consider the overall cost to the taxpayers

## **Question 27: The best thing about your county or your community is...**

safe, rural setting

Shared heritage/ability to work together for a common goal

It is a close-knit community that helps each other.

Slower pace of life

Ruralness

I love the rural, country setting and knowing your neighbors.

Its Beautiful.

It is quiet, traffic volume is low and it is scenic and environmentally clean.

The rural community.

Small

That small town feel and how the community works together to support others.

the rural lifestyle

the people and being a small community where you know almost everyone.

Plenty of opportunities to volunteer and participate as part of the community.

Being rural
