## SHOWCASE

### Readers and Sussers

When everyone has finished, the Sussers must say if they used their circle. They then reveal which option (A/B/C) they wrote down.

The Reader now reveals which option they wrote down. Sussers score 3 points if they've got it, and 6 points if they also circled it. The Reader doesn't score.

Have fun finding out why everyone made the choices they did! A Susser is allowed to try and persuade the Reader to switch their option, but the Reader always has the final say.

## Welcome to the sussed? SHOWCASE

Give everyone a score sheet and something to write with. Draw as many cards as there are players, shuffle them, then deal them out.

Whoever has the lowest numbered card will be the first **Reader**, the second lowest the second Reader, etc.

On your score sheet, write everyone's names in order of play. For 6 or more players, use the reverse side.

Reader 1		Reader 1	
Reader 2		Reader 2	
Reader 3		Reader 3	

### TAKING TURNS

Readers change after each scenario. The game ends when everyone has read all 5 of their scenarios.

### CONCLUSION

Fill in the totals to see how well you did against each player. The winner is the player with the highest overall total!

### QUICK PLAY

### HOW TO PLAY

#### The Reader

From your card, read aloud your first scenario (e.g. "I'd prefer to win..."), followed by options A/B/C.

Cover your score sheet. Alongside your name, write down the option (A/B/C) you think is closest to the truth for you.

#### The Sussers

Everyone else: you're a Susser! Cover your score sheet. Alongside the Reader's name, write down the option (A/B/C) you think they will choose.

If you're feeling confident, you can go for extra points by circling it... but you can only do this once per Reader!
