# SARA LOVELL

*"Sara Lovell taps into that place in childhood where the every-day can become fantastical at the drop of a hat."*

LYNNE HEFFLEY,  
PARENTS' CHOICE® AWARDS

This spring, award-winning singer-songwriter Sara Lovell will release her third children's music album in less than four years. *Night Life* celebrates the hours that lead up to bedtime and the magical worlds we enter when we finally succumb to sleep. As with her last two critically acclaimed albums, the new release moves beautifully between diverse musical genres – at moments riotous and full of unrestrained joy and hilarity, at other moments tender, introspective and melodic.

While focusing on bedtime and sleep, *Night Life* also touches on many of Lovell's favorite themes of home life, nature, and the cosmos. The album covers territory familiar to every parent and child, delivering smart lyrics couched within the undeniably catchy and beautifully arranged songs that have become Sara Lovell's trademark.
