

Caregiver Simulation

An interactive caregiver simulation experience for groups of 50-75 participants.

What better way to understand caregivers, than to spend a few hours in their shoes. This active simulation allows participants to experience a fraction of the challenges caregivers face, day in and day out. Each participant is assigned a role, tasks, dilemmas and opportunities to navigate throughout the simulation. We believe that this experience can develop empathy for caregivers, care receivers and agencies who are involved along the way.
