# ABOUT OMNi Apparatech

OMNi Apparatech provides an unparalleled resource to distributors in the form of a one-stop solution for uniquely designed intelligent apparel. Our brand collections - Zorrel and Primease provide men's and women's technical, athleisure and lifestyle apparel.

Within our single distribution and decoration facility, we are able to seamlessly service customers in the U.S. and Canada. We offer several decoration options with low minimum quantities, quick turnaround times and competitive pricing. Additionally, our centralized location enables quick and economical delivery coast to coast.

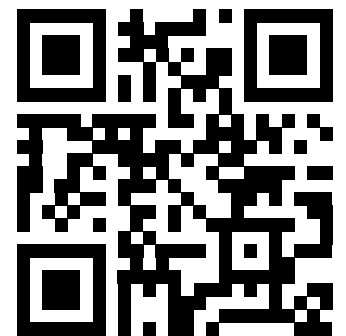

Our vertically-integrated supply chain is made up of the entire textile process: from spinning the yarns to complete cut, make and sew production. The capability to develop technically advanced materials gives us an edge in product innovation and provides us the ability to create trend setting apparel to offer our wide range of customers.

At OMNi Apparatech we continuously strive to provide our customers with superior products of highly technical fabrications unmatched by our competition, quality embellishment and dedicated customer service.

**Colors as shown in the catalog may vary slightly from the actual colors of the garments as the process of photography and printing rely on several conditions.**

## HOW TO MEASURE

### 1. NECK

Measure neck circumference where the standard button type collar might be fastened.

### 2. SLEEVE LENGTH

Measure the distance from the prominent bone at center back neck, across the shoulder, over the bent elbow, to the center of the wrist bone

### 3. CHEST

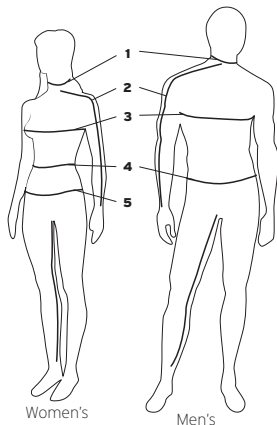

Measure the chest circumference at the fullest point, keeping the tape horizontal around the body.

### 4. WAIST

Measure the waist circumference at the smallest part of the waist, often at or above the belly button, keeping the tape horizontal around the body.

### 5. HIPS

Measure the hip circumference at the fullest part of the seat, keeping the tape horizontal across the body.

# PRIMEASE®

At OMNI Apparatech we've demonstrated our knowledge and expertise in fabrics by delivering performance wear with ZORREL.

Our Primease brand is made to be easy.

Easy to wear,

Easy to care for, and an

Easy choice for you

The apparel industry has come a long way from the 100% cotton tee. Tri-blends continue to increase in popularity and it's not without good reason. Combining just the right amount of cotton, polyester, and rayon gives you a shirt with amazing softness, strength, and drape. It's the best of all worlds.

## Cotton

breathable, durable, comfortable. All excellent attributes of the classic fabric we know and love. Cotton has improved dramatically over time and has evolved from a scratchy industry standard, to combed and ring spun yarns that produce a surprisingly soft touch.

## Polyester

smooth, shiny, resilient. Polyester is a tough, yet lightweight fabric that can hold up wash after wash. We can thank this fabric from saving us from hours of pesky ironing or steam cleaning--wrinkles don't stand a chance against a good poly. And while we can't thank it for the pills on our sweaters and shirts, the other fabrics in the blends have its back.

## Rayon

soft, excellent drape, radiant. Bringing rayon into the mix makes for a garment with superior drape and flow. It is a very soft, breathable fabric with high moisture absorbency. This means that it is an ideal choice for summer, as it absorbs sweat and wicks it away from the skin. Rayon helps reduce the amount of pilling, but does not combat wrinkles quite like polyester

With the right balance of all 3, you can harvest all the benefits each fabric brings to the table. It's no surprise that our tri-blends are so sought after.

## Zorrel - Intelligent Fabrics...

Advanced technology designed with optimum performance features.

### Dri - Balance™

Our textile engineers created an elaborate knit structure which optimizes the moisture transport dispersion in the cotton layer, allowing for air to move inward to cool the wearer. All Dri-Balance™ fabrics have two layers. Against your skin is 100% microfiber polyester, plaited to a 100% combed cotton surface. Moisture is moved from the skin to the cotton instantaneously keeping wearer dry and cool.

### Syntrel™

This Zorrel™ exclusive microfiber polyester fabric is also a blend. While Syntrel™ is 100% polyester, specialized hydrophilic and hydrophobic filaments make it unique. This blended fabric quickly moves moisture away from the body and keeps it from returning, and keeps the perspiration on the outside. Syntrel fabrics are lightweight, have a pleasing hand feel, and contain inherent insulation properties.

### Technicore™

Zorrel's newest technical fabric is Technicore Endurance. 100% polyester fabric utilizing advanced spinning and knitting techniques to give it the look and hand feel of fine cotton. Technicore goes way beyond standard cotton by offering - UV Protection, Durable Moisture Management, Superior Stability and Pill Resistant qualities .

### Elitech™

Elitech uses the latest technology in performance wear . Elitech™ is a revolutionary fabric with a considerable increase in comfort, breathability and ease of movement (in everyday lifestyle). Elitech delivers a strong sense of design combined with practicality and comfort in a performance knit fabric. It is made to resist wrinkles and wick moisture to keep you cool.

### Tri - Reg™

Tri-Reg™ is proprietary Zorrel™ fabric to incorporate 3 performance features:

Body heat regulation - keeping you cool when it's warm, and warm when it's cool.

Wind Blocking to protect you from the breeze.

Moisture Wicking capabilities to keep you dry.

The uniqueness of Tri-Reg™ keeps you dry and comfortable in nearly all temperatures.
