Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

L. Alis Monica

Bachelors of Education (B.Ed.)
Immaculate College of Education for Women, Pondicherry

A natural orator with a passion for social change, Alis is regularly recognized in school for her leadership abilities. Her parents work hard as agricultural day laborers and promised that they would save for her education. In 2018, however, their lives were turned upside down when their community was devastated by the Gaja Cyclone, which upended her home and damaged some of the trees and crops on which they partially earn a living.

Nevertheless, her family has continued to encourage her to pursue her education. Her brother took a loan from his employer, which enabled her to pay for her first year of university fees. While she has repeatedly attempted to secure a loan from various local banks in order to stay enrolled in university, her applications have been turned down on account of her family’s inability to offer any collateral in return. With 1 ½ years left in her program, she will likely be forced to drop out due to lack of resources unless Visions can provide her with the financial support (and training, mentorship, and more!) she needs to continue uninterrupted.

For just $30/month, you can make Alis’ university dreams a reality!

Alis is one of the young women selected for the next batch of Visions scholarship youth for 2020. To reach our goal, we need your help! Through the Visions Youth Guidance & Support Program, Alis is eligible for financial support to cover her university fees, related expenses, mentorship & counseling, leadership development training, and more. To-date, we have sponsored 24 youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. Please join us by setting up a recurring contribution of just $30/month and we will keep you informed of her progress over the next year!
