Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

M. Kanmani
B.E. Civil Engineering

Kanmani’s father is a daily wage earner. His income is not remotely sufficient to meet the daily expenses of the family. Kanmani’s mother has borrowed a lot of money for her sister’s education, but tells Kanmani regularly that she will not be able to support her in her education beyond secondary school. As a matter of fact, she continuously urges her to get a job in a fireworks factory in order to support the family’s income and meet regular living expenses. Sadly, Kanmani always tells her friends that she feels like a burden to her family.

Despite these challenges, she remains extremely optimistic. She even encourages her peers not to succumb to the pressures from their families to give up on school or their dreams. She has been pleading with at least five of her classmates not to get married after graduating from school.

After she finishes secondary school, she wants to study civil engineering, as she has a deep fondness and passion for architecture and buildings.

For just $30/month, you can make Kanmani’s university dreams a reality!

Kanmani has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Kanmani is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
