Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

S. Jamila  
B.Sc. Nursing

Jamila has a sister and a brother, both of whom are still in school. Her mother is a homemaker. Her father sadly does not contribute to the household expenses and is not supportive of his children in their education or in general. Jamila, however, is a very responsible person and works part-time during her vacation in a local cigar factory to help cover the costs of her living expenses as well as those of her brother and sister.

She wishes to continue her education so that her life can be radically different from what it is now. She is a natural leader. Jamila takes a lot of initiatives at school and organizes regular science association meetings. She simply loves science. Her dream is to join NASA. However, she tries to be practical and thinks that she can easily get a job as a qualified nurse.

For just $30/month, you can make Jamila’s university dreams a reality!

Jamila has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Jamila is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
