Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

P. Jaya Bharathi

Bachelor of Commerce

Jaya Bharathi’s parents work as contract day laborers in a brick kiln factory, a job which pays very little. They have taken an advance (loan) from the owner of the kiln, so they are essentially now bonded laborers who are unable to seek a job elsewhere.

Jaya Bharathi herself suffers from nerve issues, which requires her parents to spend a lot of money on her ongoing medical treatments. The doctors say that she can be cured if taken to a hospital in the city. But her parents do not have either the contacts or the money to bring her there.

While her sister is studying at university, Jaya Bharathi doubts that her parents will be willing or able to spend on her education, having their resources stretched too thin already. Still, she wants to study at university and achieve her ambitions. She believes that once she becomes a working professional, her income can help not only her to lead an independent life, but also support her family.

For just $30/month, you can make Jaya Bharathi’s university dreams a reality!

Jaya Bharathi has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Jaya Bharathi is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more.

Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
