Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

T. Prabha
MBBS (Medicine)

Prabha’s father and mother are factory workers. They earn small salaries and live in a rented house. Her father is keen on educating his children. Her mother, though uneducated herself, also wishes her daughter to realize her dreams. Her brother is also currently in school.

Prabha is a hard-working student. She makes use of every opportunity made available to her. With the support of her head mistress, she has joined a free NEET course. The National Eligibility cum Entrance Test (NEET) is a pre-medical entrance test for students across India who wish to pursue undergraduate medical or dental degrees. She aspires to one day become a doctor, and she knows it is only possible if she passes the NEET exam first. Prabha is not one to waste time – she has high ambitions, works hard, and is a role model for other girls in her school and community.

For just $30/month, you can make Prabha’s university dreams a reality!

Prabha has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Prabha is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
