M. Karpaga Valli

Fashion Technology

Karpaga Valli and her sister Karpagam are both in the 12th grade. Their parents works as day laborers. Their father is a barber and works for a salon. They do not have a house of their own and are living in their uncle's house. The school administration helped both sisters to attend and afford school through Grade 12 but is not able to support them any further.

Karpaga Valli is good at mathematics. A few months ago, she heard her headmistress talking with a chartered accountant about financial matters and was fascinated by the conversation. With the permission of her headmistress, Karpaga Valli was able to spend time with him learning about his job, the necessary qualifications, regular duties, etc. From that point onward she has further developed a passion for accounting and has begun to imagine herself working one day as a professional chartered accountant.

For just $30/month, you can make Karpaga Valli’s university dreams a reality!
