Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

A. Murugeshwari

Bachelor of Engineering

When Murugeshwari was 8 years old, her father deserted her family. That was ten years ago. Nowadays, she and her mother live with her grandma in a rented house. An only child, Murugeshwari herself works part-time in a shop to help her mother and grandmother with the financial expenses of running the home.

Murugeshwari knows that education has the power to change her life and the life of her mother drastically. She loves engineering and dreams of being a professional engineer one day. Oftentimes she helps her peers, especially with their mathematics assignments, as she excels in that area. These days she also eagerly attends Visions’ online leadership training program.

For just $30/month, you can make Murugeshwari’s university dreams a reality!

Murugeshwari has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Murugeshwari is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more.

Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
