Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

Geetha Kutty
BSc Agriculture

Geetha Kutty has two sisters and lives with her parents in a rented house. Her father struggles with addiction and is not able to look after the family. However, her mother strongly believes that education can change the life of her children. She works as a house maid and, with her meagre income, has managed to save and send one of Geetha Kutty’s sisters to college for awhile. Her sister had to stop her studies because of the family’s low income though.

Geetha Kutty wishes to become an agricultural scientist. She believes that farmers are the heroes of the nation. She has written a number of articles on ‘Farmers in India’.

Her dream is to equip farmers with sustainable technologies and contribute to a more productive and sustainable future for all.

For just $30/month, you can make Geetha Kutty’s university dreams a reality!

Geetha Kutty has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Geetha Kutty is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
