Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

R. Uma
BSc Chemistry

Uma has a dream: she imagines herself one day as a college lecturer. Her life is difficult. She has no parents and lives with her grandpa who has no work. They live at the mercy of their relatives, some of whom want her to get married now, because she is a “financial burden” to the family, they say.

Uma is insistent though that she not abandon her studies. One of her uncles beat her once and cursed her because of her persistence on the matter. Sadly, such reactions by family members (especially male members) are all too common in this part on India.

Undeterred, she says, “It feels like the whole world is against me, but I am sure there is light at the end of the tunnel for me.”

Uma loves to read inspirational stories and hopes to study Chemistry at university. She is confident that one day her dreams will become reality.

For just $30/month, you can make Uma’s university dreams a reality!

Uma has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Uma is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
