Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

V. Kaleeswari
Pharmacy

Seventeen year old Kaleeswari is currently finishing secondary school. Her father sells vada in the evenings, and her mother sells dosa flour. Both are street vendors. She has a brother is also currently in school. Kaleeswari’s dream is to become a pharmacist. She knows the fees to study pharmacy would be high if she does not gain admission to study at a government college though, so she is working hard to realize that objective. If she does not get a pharmacy seat, however, her second option is to do engineering, which is her other area of interest. She can see herself working as a professional engineer as well.

Kaleeswari is a good and disciplined student. She reaches out to students who struggle with their studies and supports them. With the permission of her class teacher, she tutors 7 girls in science subjects after school hours for an hour. She has the drive to succeed, if only given the opportunity…

For just $30/month, you can make Kaleeswari’s university dreams a reality!

Kaleeswari has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Kaleeswari is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
