Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life!

S. Sri Gajalakshmi
BSc Computer Science

“We are three girls in my family. My parents love us all. Some of my relatives openly say that the curse of God has befallen our parents. But not even once have my parents said anything negative to us because we are all girls,” says seventeen year-old Sri Gajalakshmi. Despite her parents’ support and sincere desire to educate their daughters, they find it very difficult to actually do so. As Gajalakshmi wishes to go to university and study Computer Science, she is in need of outside support.

Sri Gajalakshmi loves computers and technology. She spends much of her time in her school’s computer lab. She is often seen discussing computer-related subjects with her computer teacher. She wishes to work in a reputed IT company and make her parents happy. She always talks with her friends about the inspiring journey of Sundar Pitchai, current CEO of Alphabet (the parent company of Google).

For just $30/month, you can make Sri Gajalakshmi’s university dreams a reality!

Sri Gajalakshmi has been selected to join the next batch of Visions university scholars for 2021. Under this initiative, Sri Gajalakshmi is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 5 years, we have sponsored 43 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And twenty (20) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just $30/month or annual sponsorship of $360, and we will keep you informed of her progress over the next year!
